Report on Feedback analysis based improvement in Program Curriculum/Courses

We at Veer Surendra Sai University of Technology involve all the stakeholders (Students, Teachers, Employers, Alumni and Parents) in the updation of the syllabus and curriculum of the program and creation of new programs based on the survey. The survey is conducted by circulating appropriate questionnaire prepared by IQAC across the stakeholders linked to various faculty (Faculty of Engineering and Technology and Faculty of Science and Humanities). The survey helps us in gauging the strength and weakness of the program.

Based on the survey conducted, revisions are carried out in the programs. Courses are introduced to impart core competency skills which will aid for national development. Many programs are revised to have flexibility. Based on the feedback from employers courses related to employability are introduced. Most of the courses insist of student learning the tools related to their field. This enables the student to stand apart in the job arena thereby promoting the use of latest technology. Also, recent revisions include introduction of many programs with core specialization to meet global competencies among students. Fresh programs are introduced in different faculty to cater to the need of society.

The programs existing or newly introduced are based on elective systems or choice based credit systems (CBCS). The elective courses are categorized as professional elective course which help the student learn the cutting edge technologies in their field and open electives to enable the students gain multidisciplinary skills. Also, value added courses like Industrial Training, Seminar, Minor projects, soft skills and online courses are introduced in the curriculum based on the survey requirements. These courses enable the students to prepare technical reports, documentation based on their work, gain insight on-floor industrial experience, etc. Also, the recently introduced MOOC courses enable the students to learn from teachers across the globe, giving them an out of home learning avoiding home breed content. The recent curricular revision has taken into account the need for the design skills. Courses are developed to develop communication and leadership skills in students so as to enable them compete with their counterparts across the globe. In every curriculum field projects/internships are made mandatory for updating their knowledge in the subject domain. Ethical responsibilities and social concerns are appropriately inculcated through value education courses.
