

Scope of the workshop

Innovations, start up, make in India have become the buzz words of the day. It is imperative on the part of our university to make our students aware of the reality. The workshop is being organized with an aim to provide a platform for the students to understand the current business environment and associated challenges prevailing in our country. Entrepreneurs, academia and competent officials from the related areas will share their knowledge and practical experience. This initiative is expected to create an opportunity for the budding engineers to understand and have a feel of the challenges, technicalities, the current policies and the social responsibilities associated with setting up of a business establishment.

Resource Persons

The resource persons constitute Entrepreneurs, Industrialists, Bankers, Govt. Industry Officers, Professors from XLRI and IIPM.

Eligibility of Participants

B. Tech., M. Tech., MCA and M. Sc. students. The ideal audience is expected around 500 participants.

Registration Fee

Registration fees Rs. 100/- , which includes Workshop kit, certificates and refreshments,
