University Open Day Celebration

"What can we give to the world in the century of Science and Technology"

The Veer Surendra Sai University of Technology is well known for its academic and research excellence in different areas of Engineering, physical and social sciences. The university has made outstanding contribution to the society both in Engineering and Sciences through its renowned academicians and researchers. National Assessment and Accreditation Council (NAAC) and National Board of Accreditation (NBA) have accredited the different programmes of VSSUT. VSSUT with its strong emphasis on social commitment would like to highlight and share these significant achievements of the university with public, including the school and college students.

In this regard, it is decided to organize the 1st Open Day of the university on **Friday, March 17th, 2017, from 10 AM to 5 PM** in the university campus. The primary objective of the event is to show case VSSUT contributions to the general public, industries, school and college students which can serve as a source of inspiration for carrying out their career as future researchers, academicians and engineers of social change. This will also provide an opportunity to the young students to have personal interactions with the VSSUT faculty members and research scholars to discuss the career prospects through higher education. The general public and industry houses will be exposed to various problem solving avenues.

During Open Day, Essay and Painting competitions for school and college students will be held. The winners will be awarded prizes. Also certificates of participation will be distributed. For the convenience of visitors, facilities like entertainment kiosk, food plaza etc. will be available. Visitors can also visit different academic and research units (i.e. Departments and Laboratories), along with different technical clubs & societies located on the VSSUT Campus. Each academic unit will showcase their activity with the help of faculty and student volunteers. Eminent scientists, industrialists, engineers and academicians will also be invited in the event.
