## 11 Vision of the Institution:

To emerge as an internationally acclaimed Technical University to impart futuristic technical education and creation of vibrant research enterprise to create quality engineers and researchers, truly world class leader and unleashes technological innovations to serve the global society and improve the quality of life.

#### 12 Mission of the Institution:

The Veer Surendra Sai University of Technology, Odisha, Burla strives to create values and ethics in its products by inculcating depth and intensity in its education standards and need based research through

- Participative learning in a cross-cultural environment that promotes the learning beyond the class room.
- Collaborative partnership with industries and academia within and outside the country in learning and research.
- Encouraging innovative research and consultancy through the active participation and involvement of all faculty members.
- · Facilitating technology transfer, innovation and economic development to flow as natural results of research where ever appropriate.
- Expanding curricula to cater broader perspectives.
- Creation of service opportunities for upliftment of the society at large.

### 13 Contact Information of the Head of the Institution and NBA coordinator, if designated:

Head of the Institution				
Name	Prof. Banshidhar Majhi			
Designation	Vice Chancellor			
Mobile No.	8056201404			
Email ID	vc@vssut.ac.in			

## NBA Coordinator, If Designated

Name	Dr. Sasmita Behera
Designation	Assistant Professor
Mobile No.	9437367106
Email ID	sbehera_eee@vssut.ac.in

# PART B: Criteria Summary

Organizing National and International seminars and symposium for exchange of innovation, technology and information.         Expanding curricula to cater to demands of higher studies in internationally acclaimed institutes.         Preparing students for promoting self-employment.							

1.2 State the Program Educational Objectives (PEOs) (5)

PEO No.	Program Educational Objectives Statements
PEO1	The main objective of Electronics and Telecommunication Engineering Programme is the upliftment of students through quality technical education.
PEO2	These technocrats should be able to apply basic and contemporary science, engineering, experimentation skills to identifying software / hardware problems in the industry and academia and be able to develop practical solutions to them.
PEO3	The passing out graduates of the Program should be able to establish themselves as successful practicing professionals in Technology and sustain a bright career in related areas.
PEO4	The graduates should be able to use their skills with a strong base to prepare themselves for higher learning.
PEO5	Developing problem analysis and solving capability through industrial training and projects.
PEO6	Developing communication skills and interpersonal skills and preparing them for providing self-Employments.

1.3 Indicate where the Vision, Mission and PEOs are published and disseminated among stakeholders (15)

- · The vision and mission of the University is available at: http://www.vssut.ac.in
- The vision and mission of the University are also displayed through notice boards across the campus.
- The vision and mission of the Department is available at: https://www.vssut.ac.in/department.php?url=electronics-and-tele-communication
- The vision and mission of the Department are also displayed through notice boards inside the Department.
- The Programme Educational Objectives of the B.Tech. Programme in Electronics & Telecommunication Engineering is available at:
- https://www.vssut.ac.in/department.php?url=electronics-and-tele-communication (https://www.vssut.ac.in/department.php?url=electronics-and-tele-communication)
- The PEOs are also displayed through notice boards inside the department.

#### Process of dissemination among stake holders

List of stakeholders: Internal & External

Internal:

- 1. Students: Display on notice boards, Induction programs.
- 2. Faculty: Course files, individual copy in faculty cabins, website, notice boards.
- 3. Support staff: Display on notice board and corridors.
- 4. Management: individual copy in cabins, website, Notice boards

External:

- 1. Parents: Parents Interaction, Orientation program, School visit, University website
- 2. Industry/employer: Institute Website, Department visit (Industry engagement programs)

## Extent of awareness of Vision, Mission and PEOs amongst stakeholders:

Apart from this, Vision and Mission is disseminated to the stakeholders of the programs through

faculty meetings, FDPs, student awareness workshops, student induction programs, and parent teacher meetings etc.

The faculty members and students demonstrate complete awareness during class meetings, faculty meetings, curriculum review meeting, program review meeting etc.

1.4 State the process for defining the Vision and Mission of the Department, and PEOs of the program (15)

The Department of Electronics and Telecommunication Engineering adheres to a standardized procedure for formulating the vision and mission of the department. The department has a writing committee responsible for creating the first versions of the vision and mission statements. These statements are developed with careful consideration of the department's short- and long-term objectives, ensuring they are in line with the vision and mission of the University. The initial statements are then modified in response to input from both internal and external stakeholders, including:

- Graduates
- Alumni
- Parents
- Faculty members
- Industry representatives
- Eminent academicians
- IQAC
- Management of the University

Lastly, the University Academic Council approves the vision and mission statements.

## Process for defining Programme Educational Objectives

The course objectives of an engineering degree programme are concise statements that outline the anticipated accomplishments of graduates in their professional endeavors, specifically highlighting the tasks and successes expected during the first years after graduation. Initially, these objectives should contribute to the accomplishment of the departments purpose. Furthermore, the students who complete the degree are anticipated to play a pivotal role in the advancement of society by actively contributing to its growth and development.

1.5 Establish consistency of PEOs with Mission of the Department (10)

PEO Statements	M1	M2	М3	M4	M5	M6	M7
The main objective of Electronics and Telecommunication Engineering Programme is the upliftment of students through quality technical education.	3 ~	3 ~	3 ~	3 ~	3 🗸	3 ~	3 ~
These technocrats should be able to apply basic and contemporary science, engineering, experimentation skills to identifying software / hardware problems in the industry and academia and be able to develop practical solutions to them.	3 ~	3 ~	3 ~	3 ~	3 ~	3 ~	3 ~

# 2 PROGRAM CURRICULUM AND TEACHING - LEARNING PROCESSES (100)

2.1 Program Curriculum (30)

## 2.1.1 State the process for designing the program curriculum (10)

The curriculum design process of the University is a methodical procedure that involves the involvement of the University level committee and the Department level board c studies. The school has used many strategies in the curriculum design process to achieve the desired program results. The comprehensive process for designing the curriculum is shown in figure below.

(Figure 1)

2.1.2 Structure of the Curriculum (5)

ID	Course Code	Course Title	Lecture (L)	Tutorial (T)	Practical (P)	Total Hours	Theory Credits	Practica Credits
1	BMA2101	Mathematics-I	3	1	0	4	4	0
2	BCH2101	Chemistry	3	0	3	6	3	1.5

# 2.1.3 State the components of the curriculum (5)

Edit Save

Course Components	Curriculum Content (% of total number of credits of the program )	Total number of contact hours	Total nu
Basic Sciences	12.73	24.00	

2.1.4 State the process used to identify extent of compliance of the curriculum for attaining the Program Outcomes and Program Specific Outcomes as mention Annexure I (10)

#### e - NBA

The curriculum for the B. Tech. program in Electronics and Telecommunication Engineering ensures a well-rounded education by including courses from different fields suc as Science, Mathematics, Engineering Science, Humanities and Management. It also includes professional core courses, professional electives, open elective projects, an internship components. The syllabus for each course has been meticulously crafted to align with the curriculum in order to achieve the Program Outcomes (POs) and Program Specific Outcomes (PSOs) outlined for the program.

The methodology used to ascertain the degree of adherence to POs and PSOs.

- Figure 1 depicts the process of curriculum creation.
- The course outcomes of all courses are aligned with the POs and PSOs, indicating their degree of correlation on a scale of 1 (low), 2 (medium), and 3 (high). The reference is to Table 2.1.4.
- The courses are designed to cover all POs and PSOs thoroughly, and each course is linked to at least one PO with a high degree of correlation.
- Additionally, it made sure that there is a strong link between the number of courses and all POs and PSOs. The course and PO mapping of all the required courses a
  included in the program articulation matrix. Guest lectures, seminars, industry trips, etc., make up for the curricular gaps shown by the low degree of course mapping
  with PO/PSO.
- The cumulative internal evaluation and end-of-semester assessment are used to determine the accomplishment of the POs and PSOs. Indirectly achieving POs and PSOs also involves collecting feedback from companies, graduates, and alumni. Lastly, the achievement of POs and PSOs is determined by weighing the relative importance of direct and indirect accomplishment.

#### Table 2.1.4: Satellite Communication

	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9	PO1 0	PO1 1	PO1 2	PSO 1	PSO 2	PSO 3

2.2 Teaching-Learning Processes (70)

## e - NBA

## 2.2.1 Describe Processes followed to improve quality of Teaching & Learning (15)

The Institute has implemented a comprehensive teaching and learning approach that incorporates several student-centered methodologies designed to enhance the learning experience. The curriculum and courses undergo regular updates to meet the needs of industry, address global concerns, and align with the desired learning goals and Blooms taxonomy levels. The Department of Electronics Engineering has a methodical approach to enhance the teaching and learning process, which in turn improves the performance of the students. The departments method for Teaching-Learning and Quality Improvement is centered on certain criteria.

- The university formulates the academic calendar for BTech programs and distributes it to the Deans, HOS, and faculty members of the Schools. The academic calendar includes the chronological sequence of events such as student reporting, class commencement, mid-semester session and end semester session. The academic activities are strictly adhering to the Academic Calendar.
- Subject allocation for each course occurs in the preceding semester based on faculty specialty and student preferences. This allows faculty members enough time to strategize their teaching methods for each subject.
- The department-level PIC time table meticulously coordinates the schedules of all faculty members to guarantee the smooth operation of the program.
- Each course is assigned a course committee, led by a course coordinator, who collaborates with the course instructors to create the course handout. The course handout provides comprehensive information about the course, including the course code, course credit, course material, course result, lesson plan, assessment system, activity calendar, and recommended textbooks and reference books. The lesson plan provides a comprehensive overview of the subjects that will be taught each session, including the mapping of course outcomes and the specific chapters in the textbook or reference book that will be covered.
- The course instructor is responsible for creating and distributing the teaching/lecture materials to the students. The lab instructions are sent to the students together with the course material for the lab course. The lab guides are created well in advance and undergo a thorough review by the individual PIC lab, who will make any necessary revisions.
- Each students are assigned a subject or practical issue that is relevant to the course objectives. They are then directed to use e-media, journals, site visits, and grou discussions to gather information and resources. Subsequently, they undergo evaluation and are required to share their work, therefore fostering a conducive learnin atmosphere and providing assistance to their peers.
- We arrange for highly skilled and knowledgeable guest lecturers who possess specialized expertise and extensive experience. These individuals provide valuable insights into real-world practices and cutting-edge strategies that are currently being used in the industry. This enhances the overall comprehension and learning experience for the students.
- Students are also encouraged to enhance their learning by using video lectures, animations, various pictures, open courseware, e-Resources Journals & Articles, Coursera, MOOCs, and NPTEL. These resources provide students with valuable insights and knowledge in their respective domains.
- The activities encompass the practical application of strategies in real-world situations, gaining an understanding of limitations, recognizing the pertinent social, environmental, legal, and economic consequences, and analyzing the resulting effects. Additionally, the activities conducted every year under the banner of TECHTRONIX involve resolving real-life complex problems with the aid of simulations and models that are relevant to the objective.
- Regular Course Committee meetings are held to assess the performance of students and determine appropriate measures for both high-achieving and underperforming students.

2.2.2 Quality of end semester examination, internal semester question papers, assignments and evaluation (15)

#### e - NBA

The students courses are categorized into theoretical and practical courses. Each of these courses undergoes a series of examinations to evaluate the students performance, as outlined below:

### Theory courses

- Continuous evaluation (20 marks): The students performance is assessed via various assignments and learning activities conducted throughout the semester for the course. The organization, allocation, and assessment of activities and assignments are facilitated by various methods such as quiz, surprise test. etc.
- The mid-semester examination (30 marks): This examination, is performed during the middle of the semester. It has a weightage of 30 marks and evaluates the students understanding of a specific portion of the curriculum. The syllabus for the examination is determined and communicated by the department board of studies consultation with other course professors.
- End-of-semester assessment (50 marks): Students are assessed using a closed-book exam that covers the complete course material.

#### Practical courses

- Continuous or Internal assessment (60 marks): Students are assessed according to their performance, understanding of ideas, ability to work as part of a group, ora examination, and documentation related to various experimental tasks, simulations, programming, and learning activities assigned and completed over the semester
- End Semester examination (40 marks): The evaluation of students is determined by their performance in a specific experimental or practical assignment, which must be accomplished within a certain time frame and under continuous supervision. Additionally, their performance in the final semester oral examination is also taken int account.

VSSUT has established protocols for conducting examinations, which include the creation of question papers for both mid-semester and end-semester exams, as well as ongoing assessment via various activities. Below are the guidelines for each component of evaluation.

## A. Ongoing assessment via educational exercises for every theoretical course:

The ongoing assessments activities have been specifically intended to enhance learning among students. The exercises should be organized in a manner that allows the course instructor to evaluate the students performance in several categories, as well as their progress towards achieving the desired course goals. The table below provides a set of recommended practices for the elements mentioned above. Course instructors have the freedom to choose and implement a teaching method that aligns with or goes beyond the recommended guidelines.

## Continuous Evaluation through learning activities for each theory course:

Focus	Learning Practice	Brief description
Group	Synchronous Discussion	Give a list of questions to a group of 20–30 students. Encourage response sharing.
	Collaborative Discussion	Separate the information set into five or six sections. Give five or six students a portion of the information. Permit information exchange and continued subgroup development.
	Group Assignment	Assign members of a group of five to six the following roles: researchers, presenters, schedule and records manager, project manager, and so on. Give students a project that they can finish in a semester.
Brain Teasing	Innovative skill	Assigning real time problems and asking for solution to student groups.
	Case Study	Identification of problems, stakeholders, solutions, effects, and repercussions is expected of students.
	Research need identification	In order to determine a relevant research need, students are expected to read through review papers and sets of research publications. The required research, background information, and a summary of the literature should all be included in a two-page report.
	Info-graphic	To elucidate, characterize, and illustrate the provided data, method, or process.
Creative	Written summary	Students are expected to compose a one-page synopsis based on a particular section of a course, text, or research article.
	Physical model/ mathematical model/ soft- model	The task for the student is to create a suitable model.

-		
	Assignments	list of issues or cases that need to be resolved and submitted
Problem solving	Modeling and simulation	Students are expected to create mathematical models, algorithms, and codes, as well as to simulate using the proper tools.
Preparing for higher education	Quiz	The course questions should be answered by students in accordance with the requirements of the GATE, CES, CS, and other competitive exams.
Self	Self assessment	Students are to evaluate the caliber of their work using the specified standards.
evaluation	Reflection on learning	A written report outlining the students pre-course goals, learning outcomes, and the efficiency of particular teaching resources

#### **B. Internal Question Papers Quality**

The following procedures are used to sustain the quality of the internal question paper. The procedure undergoes periodic assessment and updates.

- The department board of studies determines the curriculum for the internal examination and solicits a question pool from the committee members.
- The subject instructor prepares the questions by adhering to the specified criteria.
  - a. Alignment of specific questions in the exam with the corresponding COs.
  - b. Aligning each question paper with the corresponding tiers of questions according to Blooms Taxonomy.
  - c. Aligning each question paper with the corresponding chapters of the course.
  - d. Ultimately, the questions quality is assessed by considering the established criteria of Blooms Taxonomy and its alignment with the content of the chapter and course objectives.
- After the evaluation sheet data found to meet the quality standards, the question paper is submitted to Faculty-In-Charge Examination.

## C. Evaluation of the final semester examination papers quality

The following procedure is used to maintain the quality of the final examination question paper.

- The department board of studies suggests selecting four or five faculty members to create the end semester question paper.
- Department board of studies is responsible for determining the list of faculty members who will set the end semester papers (two or three members). The paper setter are faculty members from various prestigious institutions in India. The list is shared with the dean academics and controller of examiner.
- The paper setter adheres to the following criteria while preparing the question paper.
- 1. Alignment of specific questions on the exam with their corresponding COs.
- 2. Aligning each question paper with the corresponding tiers of questions according to Blooms Taxonomy.
- 3. Alignment of certain question papers with the corresponding chapters of the course.

## Format of Question Paper for Midsemester

Question No.	Learning Level as per Bloom's Taxonomy	Description	Marks	Course outcome(CO)/ Performance Indicator(PI)
Q 1 (a)- (c)	Learning levels 1 ,2 and 3.	Questions based on remembering, understanding and application.	20% of total marks to be assigne d to Q1.	CO 1,2,3. Pls related to learning level 1,2 and 3 as per Bloom's taxonomy.

Q 2 (a)- (b)	Learning levels 4 ,5 and 6.	Questions based on analysis, evaluation, design, innovation, formulation.	16% of	CO 1 Pls related to learning level 4,5 and 6 as per Bloom's taxonomy.
Q 3 (a)- (b)	Learning levels 4 ,5 and 6.	Questions based on analysis, evaluation, design, innovation, formulation.	total marks to be assigne d to each question	CO 2 PIs related to learning level 4,5 and 6 as per Bloom's taxonomy.
Q 4 (a)- (b)	Learning levels 4 ,5 and 6.	Questions based on analysis, evaluation, design, innovation, formulation.		CO 3 Pls related to learning level 4,5 and 6 as per Bloom's taxonomy.

Format of Question Paper for End semester

Question No.	Learning Level as per Bloom's Taxonomy	Description	Marks	Course outcome(CO)/ Performance Indicator(PI)
Q 1 (a)- (e)	Learning levels 1 ,2 and 3.	Questions based on remembering, understanding and application.	20% of total marks to be assigne d to Q1.	All COs Pls related to learning level 1,2 and 3 as per Bloom's taxonomy.
Q 2 (a)- (b)	Learning levels 4,5 and 6.	Questions based on analysis, evaluation, design, innovation, formulation.		CO 1 Pls related to learning level 4,5 and 6 as per Bloom's taxonomy.
Q 3 (a)- (b)	Learning levels 4 ,5 and 6.	Questions based on analysis, evaluation, design, innovation, formulation.	16% of	CO 2 Pls related to learning level 4,5 and 6 as per Bloom's taxonomy.
Q 4 (a)- (b)	Learning levels 4 ,5 and 6.	Questions based on analysis, evaluation, design, innovation, formulation.	total marks to be assigne d to each question	CO 3 Pls related to learning level 4,5 and 6 as per Bloom's taxonomy.
Q 5 (a)- (b)	Learning levels 4 ,5 and 6.	Questions based on analysis, evaluation, design, innovation, formulation.		CO 4 Pls related to learning level 4,5 and 6 as per Bloom's taxonomy.
Q 6 (a)- (b)	Learning levels 4 ,5 and 6.	Questions based on analysis, evaluation, design, innovation, formulation.		CO 5 Pls related to learning level 4,5 and 6 as per Bloom's taxonomy.

## D. Quality of the Evaluation

The following methods have been established to ensure the quality of answer script assessment. The procedure undergoes periodic assessment and subsequent updates.

- The evaluator evaluates the answer scripts and awards mark to the individual answers.
- The course coordinator devises an evaluation scheme, which is sent to all evaluators and students.
- Given the Universitys emphasis on openness, the answer sheets are given for student inspection. Students review their answer papers digitally and request a reevaluation.

2.2.3 Quality of student projects (20)

According to the curriculum for B.Tech. in Electronics and Telecommunication Engineering, each student is required to complete one project during the 7th and 8th semesters.

Tools	Marks	Credit
7th Semester (Internal evaluation)	100	3
8th Semester (External evaluation)	100	6

## A. Identification of Projects and allocation methodology to faculty members

Figure 2.2.3 provides a description of the process associated with project identification, allocation, and monitoring. The HOD appoints a project coordinator who is responsible for the strategic planning, efficient scheduling, and successful implementation of all activities pertaining to student project work.

#### (Figure 2.2.3 illustrates the process for the Project Allocation approach.)

#### B. Planning, Scheduling, Monitoring and Execution

Step	Task	Process description
Step-1	Project Identification	Projects are selected by faculty members and/or students based on their own areas of interest. Fig. 2.2.3 illustrates the intricate procedure.
Step-2	Allotment	Students are given projects and guides are allocated to them. Students are allocated the laboratory and supplied with resources for the development of their projects.
Step-3	Continuous Monitoring	The projects development is reviewed weekly by the guide. The ongoing development is also evaluated via regular assessment by a panel.
Step-4	Evaluation	Students are required to provide a demonstration of how the project functions. Students are required to explain the operational principles of their project. Students are required to provide a detailed explanation of the implementation technique, design process of components, performance of the system, application of projects, and future scopes in presence of external examiners. Finally, students are required to submit the project report.

## C. Project Evaluation Scheme

• Evaluation of performance in Project components is conducted independently by the project guide, panel members, reviews, and external evaluators. The evaluation considers several aspects like the creation of models/prototypes, construction materials, use of current engineering equipment, project work quality, innovation, student presentation, viva, reviews, report writing, and individual contributions.

Table 2.2.3: A detailed project assessment scheme

SI No.	Evaluation Component	Evaluation Type	Marks	Components of Evaluation
1	Final Evaluation	Presentation, viva and report submission	50-panel	Report-15 Presentation- 15 Viva(QnA)-20
2			25-supervisor	Content of project
3			25-external	Overall

## D. Category and significance of the initiatives and their impact on achieving the POs

Project results upon completion of the course, students will possess the ability to:

CO1: Conduct a comprehensive analysis of specific technical concerns and establish a clear project aim.

CO2: Propose a clear plan for executing the project within the specified timeframe.

CO3: Utilize basic engineering principles, employ sophisticated technical expertise, utilize contemporary engineering tools, conduct experiments, and rigoro the resulting data.

CO4: Develop engineering solutions and design system components or processes while taking into account public health, safety, and welfare, as well as glc social, environmental, and economic issues.

CO5: Demonstrate proficiency in both independent work and collaborative work across diverse professional environments, while adhering to ethical principle

#### Mapping of project CO with PO/PSO

S.No.	Project CO	Relevance to PO	Relevance to PSO
1.	CO1	1,2,4,6,12	-
2.	CO2	1,2,4,9,10	-
3.	CO3	1,2,5	1,2
4.	CO4	1,2,3,4,5,7,8,11,12	1,2,3
5.	CO5	6,8,9,10,11,12	3

2.2.4 Initiatives related to industry interaction (10)

The department of Electronics and Telecommunication Engineering has established a robust collaboration between the industry and academics to optimize t for the students. The department has implemented many projects to foster a dynamic relationship with the industry, a few of which are outlined below.

Participation of the industry in the program design and curriculum

- · Involvement of the industry in Industry Supported Laboratories
- Partial completion of the course:
- Presentations given by professionals from the industry
- · Educational events focused on hands-on learning and discussions
- Industrial visits
- Industry Electives
- Industry involvement in Research
- · Industry involvement in student projects
- Internships

## Industry Internship

Company names where students have undertaken internship in last 4 years.

S. No.	2023-24	2022-23	2021-22	2020-21	2019-20
1	Hindustan Aeronautics Limited Koraput Division	Name of Organisation	IIIT Allahabad	Samagrah foundation	Hindustan Aeronautics Limited
2	NALCO,IOCL	NIT ROURKELA	NTPC	Tata steel Utilities and Infrastructure Services Limited	INDIAN RAILWAYS
3	Code Inbound LLP	Rttc,Bsnl	SAIL , RSP	Rttc BSNL	BSNL

#### Impact Analysis

- Students cultivate a professional demeanor, acquiring the proficiency to present their research at esteemed national and international conferences and journals.
- · Additionally, students have achieved accolades in project design competitions at the state, national, and worldwide levels.
- Increase in students proficiency in cutting-edge technologies.
- · As students acquire more skills necessary for their development. Gain a competitive advantage in the job market.
- Enhanced opportunities for targeted development in students
- Smooth transition into employment

2.2.5 Initiatives related to industry internship/summer training (10)

# e - NBA

Process	Implementation	Impact
Summer training and internship are included in the curriculum plan.	Summer training is an obligatory element of the curriculum, and chosen students participate in an internship program. These components are also considered key Academic requirements and are based on credits. Previously, students would undergo a four-week summer training during the fourth semester and a four-week internship during the sixth semester at esteemed commercial or public sector businesses. During the fourth semester. In addition, the department offers in-house training programs in collaboration with industry specialists, which students have the option to participate in during their sixth semester. Students are required to do a one-month internship in the industry in order to get firsthand experience in a genuine industrial setting. In eighth semester the students are allowed to do internship for six months in the industries.	Students are immersed in an authentic industrial setting, which alters their perspective as aspiring engineers and inspires them to confront obstacles in a genuine industrial context.

# Industry internship/summer training

# 3 COURSE OUTCOMES AND PROGRAM OUTCOMES (175)

Define the Program specific outcomes

PSO1	Apply the knowledge of electronic circuits, analog and digital communication, wireless communication, radar engineering and antenna systems to engineering problems in the discipline of Electronics and Telecommunication Engineering
PSO2	Develop suitable techniques and cutting-edge engineering hardware and software tools in Electronics and Telecommunication Engineering to so problems.
PSO3	Aware of the impact of professional Electronics and Telecommunication Engineering solutions on social, economic, environmental and technolog

3.1 Establish the correlation between the courses and the Program Outcomes (POs) & Program Specific Outcomes (25)
8/2	1/24, 5:21 PM		e - NBA		
	No. of Core Courses: 8	C2: 3		<b>C3</b> : 3	<b>C4</b> : 2

Note : Number of Outcomes for a Course is expected to be around 6.

Course Name :		C2 01	Course Year :	2020-2021
Course Name	Statomonte			
C2 01 1	Analyze diffe	rent types of signals		
C2 01.2	Implement ar	nd represent continuous and discrete time syste	ems.	
C2 01.3	Implement th	e systems in time and frequency domain using	Fourier series.	
C2 01.4	Analyze the 0	CTFT for different signals.		
C2 01.5	Implement D	TFT of different signals.		
			1	
Course Name :		C2 02	Course Year :	2020-2021
Course Name	Statements			
C2 02.1	Analyze fund	amentals of digital electronics logic circuits		
C2 02.2	Design & ana	alyses modular combinational circuits with MUX	(/DEMUX, Decoder, Encoder	
C2 02.3	Design & ana	alyses synchronous sequential logic circuits		
C2 02.4	Understand r	nemory decoding and implementation of function	on using Programmable Logic Device	es (PLDs).
C2 02.5	Use HDL & a	ppropriate EDA tools for digital logic design an	d simulation	
	1			
Course Name :		C2 03	Course Year :	2020-2021
Course Name	Statements			
C2 03.1	Understand b	pasic concepts of a communication system		
C2 03.2	Understand t	he analysis of baseband and passband signals	in time domain and in the frequency	/ domain
C2 03.3	Develop unde	erstanding of various analog and digital modula	ation and demodulation techniques.	
C2 03.4	Analyze the p	performance of receiver under transmission thr	ough different channel conditions	
C2 03.5	Understand t	he application of concepts in modern wireless	communication systems	
Course Name :		C3 01	Course Year :	2021-2022
Course Name	Statements			
C3 01.1	Implement ar operation with	nd solve basic binary math operations using the hin the area of manufacturing and performance	e microprocessor and explain the mic	croprocessor's and Microcontroller's internal archit
C3 01.2	Analyze and	demonstrate programming proficiency using th	e various addressing modes and dat	a transfer instructions of the target microprocesso
C3 01.3	Evaluate the	accepted standards and guidelines to select a	opropriate Microprocessor (8085 & 8	086) and Microcontroller to meet specified perform
C3 01.4	Analyze asse	embly language programs; select appropriate a	ssemble into machine a cross assen	nbler utility of a microprocessor and microcontrolle
C3 01.5	Demonstrate	the electrical circuitry to the Microprocessor I/0	O ports in order to interface the proce	essor to external devices
Course Name ·		C3 02	Course Year -	2021-2022
Course Name	Statements			
C3 02.1	Characterize	signals and systems.		
C3 02.2	Analyze digita	al systems in time and frequency domain		
C3 02.3	Digital system	n characterization through DFT and FFT.		
C3 02.4	Realization a	nd implementation of digital filters and systems	3.	
C3 02.5	Undestand si	gnal spectral estimation methods.		

Course Name : C3 03	Course Year :	2021-2022
---------------------	---------------	-----------

e - NBA

Course Name	Statements
C3 03.1	Express the design of rectangular and cylindrical waveguides at high frequency.
C3 03.2	Analyze scattering parameter and functioning of different microwave components.
C3 03.3	Apply basic principles of high frequency microwave circuits like filters and amplifiers.
C3 03.4	Analyze detail working of various microwave sources.
C3 03.5	Demonstrate microwave propagation in atmospheric condition.

Course Name :		C4 01		Course Year :	2022-2023								
Course Name	Statements												
C4 01.1	Demonstrate the concept of radiation through mathematical formulation.												
C4 01.2	Evaluate perf	ormance characteristics of array	antennas										
C4 01.3	Implement dif	ferent modes of radio wave prop	agation										
C4 01.4	Analyze and o	design of microstrip patch antenr	ıa.										
C4 01.5	Apply basic p	rinciples microwave propagation	in atmospheri	c condition.									

	C4 02		Course Year :	2022-2023									
Statements													
02.1 Understand the fundamental concepts of computer networking and reference models along with physical layer.													
Familiar with	data link layer protocols with	framing, flow cont	rol and error detection technique	es along with wireless LAN, V-LAN and multiple access									
Implement the	e basic IP protocols and build	ding the skills of su	ubnetting and routing mechanisr	ns									
Express the t	transport layer protocols and	how they can be ι	used to assist in network design	and implementation.									
Analyze the a	application layer protocols – [	DNS, Remote Log	ging (Telnet), SMTP, FTP, WWW	/, HTTP and SNMP.									
	Statements Understand t Familiar with Implement th Express the Analyze the a	C4 02 Statements Understand the fundamental concepts of of Familiar with data link layer protocols with Implement the basic IP protocols and build Express the transport layer protocols and Analyze the application layer protocols – D	C4 02 Statements Understand the fundamental concepts of computer networki Familiar with data link layer protocols with framing, flow cont Implement the basic IP protocols and building the skills of su Express the transport layer protocols and how they can be u Analyze the application layer protocols – DNS, Remote Loge	C4 02       Course Year :         Statements         Understand the fundamental concepts of computer networking and reference models along         Familiar with data link layer protocols with framing, flow control and error detection technique         Implement the basic IP protocols and building the skills of subnetting and routing mechanism         Express the transport layer protocols and how they can be used to assist in network design         Analyze the application layer protocols – DNS, Remote Logging (Telnet), SMTP, FTP, WWW

3.2 Attainment of Course Outcomes (75)

#### e - NBA

All the courses offered in the program curriculum are broadly classified into 3 categories with their individual assessment methods:

- 1. Theory courses
- 2. Sessional courses
- 3. Project

Course outcome attainment for each type of course is discussed below.

#### Attainment of course outcomes for theory courses:

Course Category	Type of Assessment	Assessment Tools	Marks	Category	CO Attainment type
		Assignments, Quiz tests (Formative assessments)	20	Cumulative Internal Examination (CIE)	Formative type
	Direct	Mid Semester Examination	30	Cumulative Internal Examination (CIE)	Direct CO Att.
Theory		End Semester Examination	50	Semester End Examination (SEE)	(70% weightage)
	Indirect	Course Completion feedback			Indirect CO Att. (30% weightage)

#### Data Acquisition Process CO attainment of theory courses:

- For direct CO attainment, all the questions of mid-semester and end semesters are mapped with course outcomes during the preparation of the question paper.
- For the indirect CO attainment, semester-end feedbacks are collected by the department to acquire opinions about each CO from the students.
- During Covid 19, marks obtained by all the students from the online examinations are shared by the exam coordinator for CO attainment analysis.
- Final computation of course outcomes attainment is done through spreadsheets by the concerned faculty. CO attainment information will be compiled by the cour coordinators and information passed on to the School Quality Assurance Cell and Program Assessment Committee for subsequent decisions and actions.
- The calculation for attainments is performed after the declaration of end-semester examination results. All documentations related to attainments are maintained by t course coordinators.

### Direct CO Attainment Process of a Theory Course:

	Threshold levels for direct CO Attainment
Level= 3	100 $\geq$ Percentage attainment in each CO $\geq$ Threshold <sub>1</sub>
Level= 2	Threshold <sub>1</sub> > Percentage attainment in each CO $\geq$ Threshold <sub>2</sub>
Level= 1	Threshold <sub>2</sub> > Percentage attainment in each CO > 0

(Threshold<sub>1</sub>=70%, Threshold<sub>2</sub>=40%)

Threshold values are decided by the Board of Study and may be altered to other values depending on the complexities and hardness of questions in the Mid and End Semester Examinations. Direct CO attainment is calculated for each student as shown below

#### Percentage attainment in each CO =

Total marks obtained by the student corresponding to the particular CO

Total marks allotted to questions mapped the particular CO

For each student, levels are assigned according to all Cos according to the percentage attainment in each CO.

Attainment of each CO = Average of the levels obtained by all the students

Direct CO attainment of a course = Average of all five COs

#### Indirect CO Attainment of a Theory Course:

For each CO, attainment levels are collected from all the students through feedback forms.

Attainment in each CO =

Indirect CO attainment of a course = Average of all five COs

Final CO Attainment level = (0.7) \* Direct CO Attainment + (0.3) \* Indirect CO Attainment

### Attainment of course outcomes for Sessional courses:

The course outcome attainment is assessed based on the student's performance in cumulative internal examination (which included continuous assessment throug experimental activities/tasks) and semester-end examination. A summary of different assessment components and respective weightage is given in the table below.

Course Category	Assessment	Marke	Catagory	CO Attainment type	
	Tools	WIAI NS	Category		

e - NBA

	For every experiment, evaluation is to be done for corresponding Course Outcomes through the performance of students, viva, record marks	80	Cumulative Internal Examination (CIE)	
Sessional	End Semester Examination (Viva/ Test / Quiz)	20	Semester End Examination (SEE)	─ Direct CO Att. (70% weightage)
	Course Completion feedback			Indirect CO Att. (30% weightage)

The experimental activities and tasks are mapped to different Course Outcomes (COs) and are used to compute the class average corresponding to every CO in the cours as described below: Cumulative Internal Examination: The class average corresponding to each CO is assessed as below.

Level 3	100 ≥ Percentage attainment in each CO ≥ Threshold <sub>1</sub>	
Level 2	Threshold₁ > Percentage attainment in each CO ≥ Threshold₂	I hreshold <sub>1</sub> = 80% Threshold <sub>2</sub> = 60%
Level 1	Threshold <sub>2</sub> > Percentage attainment in each CO > 0	

Threshold values are decided by the Board of Study and may be altered to other values

depending on the complexities and hardness of experiments.

Final CO Attainment level= (0.7) \* Direct CO Attainment + (0.3) \* Indirect CO Attainment

#### Attainment of course outcomes for Projects:

A summary of different assessment components and respective weightage is given in the table below.

Course Category	Assessment Tools	Marks	Category	CO Attainment type
	For a project done by a student, evaluation is to be done for corresponding Course Outcomes through the performance of students. This evaluation is done by the respective guide.	80	Cumulative Internal Examination (CIE)	Direct CO Att
Project	End Semester Examination (presentation, QnA)	20	Semester End Examination (SEE)	(70% weightage)
	Course Completion feedback			Indirect CO Att. (30% weightage)

Final CO Attainment level= (0.7) \* Direct CO Attainment + (0.3) \* Indirect CO Attainment

#### Example of Course Outcomes (COs) Attainment of a theory course:

Target CO att=1.8 (60% of 3)

3.3 Attainment of Program Outcomes and Program Specific Outcomes (75)

#### 3.3.1 Describe assessment tools and processes used for measuring the attainment of each Program Outcome and Program Specific Outcomes (10)

The Programme outcome assessment tools are categorized into direct and indirect methods of outcome assessment. Direct Programme outcome attainment is evaluated through the course outcome attainment. Indirect PO attainment is evaluated through based on questionnaire survey of various stake holders such as Graduates, Alumni and Employers. The details of frequency of collection and responsible authorities are given below.

Type of Assessme nt	Assessment Tools	Data Collection frequency	Responsible entity
Direct	CO Attainment of each course	Once after each semester	Course coordinator of the department
Indirect	Student survey, Alumni Survey and Employer Survey	Once in a year	Internal Quality Assurance Cell (IQAC)

The process of direct and indirect PO attainment is described below.

#### Direct assessment and evaluation of Program Outcomes and Program Specific Outcomes

The formula for the calculation of the POs attainment considering the relevant courses and their outcomes is given below:

Direct attainment  $i^{th} PO = PO_i = \frac{\sum_{j=1}^{N} CO_j P_{ji}}{N}$ 

N= Total number of courses,  $CO_j = CO$  attainment of  $j^{th}$  course

 $P_{ji}$  = value given in the Program Articulation Matrix (PAM) for the  $j^{th}$  course and  $i^{th}$  PO

#### Indirect assessment and evaluation of Program Outcomes and Program Specific Outcomes

Each year the Internal Quality Assurance Cell of the university conducts the student survey, alumni survey, and employer Survey. In each survey, the questions ar prepared based on twelve program outcomes, and the corresponding answers are given in the form of ratings as 3, 2, 1, and 0. The average rating value for each PO computed and is represented as indirect PO attainment. Similarly, surveys are taken for Program Specific Outcomes and the indirect attainments of PSOs are calculated.

3.3.2 Provide results of evaluation of each PO & PSO (65)

2019-20 (LYG)	128	109	122	120
2018-19 (LYGm1)	129	108	116	115
2017-18 (LYGm2)	126	108	119	117

Year of entry Total No of students admitted in the program $(N1 + N2 + N3)$		Number of students who have successfully graduated in stipulated period of study) [Tot without Backlog]			
	(N1 + N2 + N3)	l year	ll year	III year	
2023-24 (CAY)	164				
2022-23 (CAYm1)	173	125			
2021-22 (CAYm2)	127	105	117		
2020-21 (CAYm3)	136	118	132	128	
2019-20 (LYG)	128	110	123	120	120
2018-19 (LYGm1)	129	109	126	123	122
2017-18 (LYGm2)	126	108	120	118	118

#### 4.1 Enrolment Ratio (20)

	N (From Table 4.1)	N1 (From Table 4.1)	Enrollment Ratio [(N1/N)*100]
2023-24 (CAY)	120	116	96.67
2022-23 (CAYm1)	120	125	104.17
2021-22 (CAYm2)	120	109	90.83

Average [ (ER1 + ER2 + ER3) / 3 ]: 97.22

#### Assessment: 20.00

4.2 Success Rate in the stipulated period of the program (20)

4.2.1 Success rate without backlogs in any semester / year of study (15)

Item	Latest Year of Graduation, LYG (2019-20)	Latest Year of Graduation minus 1, LYGm1 (2018-19)	Latest Year of 2 LYGm2 (201
X Number of students admitted in the corresponding First year + admitted in 2nd year via lateral entry and seperated division, if applicable	128.00	129.00	126.00
Y Number of students who have graduated without backlogs in the stipulated period	118.00	115.00	117.00
Success Index [ SI = Y / X ]	0.92	0.89	0.93

Average SI [ (SI1 + SI2 + SI3) / 3 ] : 0.91

Assessment [15 \* Average SI]: 13.65

#### 4.2.2 Sucess rate in stipulated period (5)

Item	Latest Year of Graduation, LYG (2019-20)	Latest Year of Graduation minus 1, LYGm1 (2018-19)	Latest Year of 2 LYGm2 (201
X Number of students admitted in the corresponding First year + admitted in 2nd year via lateral entry and seperated division, if applicable	128.00	129.00	126.00
Y Number of students who have graduated in the stipulated period	120.00	122.00	118.00
Success Index [ SI = Y / X ]	0.94	0.95	0.94

Average SI[ ( SI1 + SI2 + SI3) / 3 ]: 0.94

#### Assessment [5 \* Average SI]: 4.72

Note : If 100% students clear without any backlog then also total marks scored will be 20 as both 4.2.1 & 4.2.2 will be applicable simultaneously.

4.3 Academic Performance in Second Year (10)

Academic Performance	CAYm1(2022-23)	CAYm2(2021-22)	CAYm3 ( 202
Mean of CGPA or mean percentage of all successful students(X)	7.60	7.35	7.50
Total number of successful students (Y)	117.00	132.00	123.00
Total number of students appeared in the examination (Z)	123.00	136.00	128.00
API [ X * (Y/Z) ]	7.23	7.13	7.21

#### Average API [ (AP1 + AP2 + AP3)/3 ] : 7.19

Assessment [ AverageAPI ]: 7.19

4.4 Placement, Higher Studies and Entrepreneurship (30)

# e - NBA

Item	CAYm1( 2022-23 )	CAYm2( 2021-22 )	CAYm
Total No of Final Year Students(N)	120.00	123.00	118.0
No of students placed in the companies or goverment sector(X)	98.00	88.00	75.00
No of students admitted to higher studies with valid qualifying scores(GATE or equivalent State or National Level tests, GRE, GMAT etc.) (Y)	5.00	10.00	4.00
No of students turned enterpreneur in engineering/technology (Z)	0.00	2.00	0.00
Placement Index [ (X+Y+Z)/N ] :	0.86	0.81	0.67

Average Placement [ (P1 + P2 + P3)/3 ]: 0.78

Assessment [ 30 \* Average Placement] : 23.40

Program Name : Electronics & Telecommunications Engineering Assessment Year : 2022-23 (CAYm1)

4.5 Professional Activities (20)

e - NBA

- 4.5.1 Professional societies/chapters and organizing engineering events (5)
  - 1. The Department of Electronics and Telecommunication Engineering is having a Professional society in the name of "Electronics and Telecommunication Society". Th festival in the name of "TECHTRONIX" each year which includes various technical events like Circuit model presentation, poster presentation, Hackathon, Technical Time to time the society also organizes Invited Guest Lectures, online technical talks by distinguished speakers from various industries and academia.
  - 2. The Veer Surendra Sai Space innovation centre (VSSSIC) under VSSUT technical society is formed in collaboration with ISRO to promote R&D in space technology objective of this Space Innovation Research Lab is to encourage the students in research and development in the domain of Space Science and Technology at VSS<sup>1</sup> region.Faculty coordinators are Prof. H. K. Sahoo, Dr. Konhar, Dr. N. Patel, Dr. S. Panda, Dr.R panigrahi.
  - 3. IEEE student branch chapter at VSSUT, wasformed to promote excellence in the field of technical education apart from class room teaching and to connect with the platform. Faculty coordinator of IEEE student branch chapter at VSSUT is Prof. H. K. Sahoo.

### 4.4.2 Publication of technical magazines, newsletters, etc. (5)

- Souvenir for Golden Jubilee ceremony: The Golden Jubilee ceremony (1972-2022) was celebrated in the Department on 29<sup>th</sup> January 2023. The objective was to update knowledge through technical talks and discussions from the alumni of Dept. of ETC. A souvenir is published on this occasion.
- Techtronix It is the souvenir of annual technical festival (Techtronix) of the Department which is published every year. The objective is to publish students project models, poster models and abstracts of other technical events organized in the annual technical festival.

4.4.3 Participation in inter-institute events by students of the program of study (10)

Students are encouraged to participate in different inter-institute events and activities during theircourse of study. Students participated in events organised during annual tech fest SAMAVESH, VASSAUNT etc.

SI.No	Event	Team members/ Individual	Awards
1	Robo War	Chinmay Priyanshu	Winner
2	Rhapsody quiz competition- NIT Rourkela	Hitesh Kumar jena	Team -3rd prize
3	IIRS,ISRO	Debansi Patnaik	participated in the online event on the topic "Geoprocessing with python
4	DEBUG BATTLE, VASSAUNT	Naren Pradhan	Team-winner
5	Hackathon - code4Odisha, SOA, BBSR	B Ashish Kumar Patro	Finalists
6	ETHOS Ideathon 2022, IIMSambalpur	B Ashish Kumar Patro	Finalists
7	Drone Technology, NIT, Rourkela	Rudra Prasad swain Chiranjibi Biswal	Successfully made a drone
	3(o) composite Technical Company NCC, Burla		Photography - 2nd position
	Startup Odisha Yatra 2.0' 2022		Top 10 Finalist
8	IEEE BBDITM student branch in collaboration with the IEEE BBDTIM signal processing society.	<sup>™</sup> Arpita Maheswari Singh	winner all India online Calligraphy competitions
9	World Space Week, SDSC SHAR, ISRO	Famiya Tasneem	Team - 2nd prize
10	4th chapter convention on Quality concept, ,QCFI Bhubaneswar chapter	T ACHYUTA PATRO	GOLD AWARD
11	Smart India Hackathon 2022	Asmi lena	Winner
	L&T Techgium Hackathon 2022		Semi-finalist

r			
12	Space Week event hosted by ISRO- Indian Space Research Institute at Shree Jagannath Sanskrit University Puri.	Sai Nandini	Team -3rd position
	IMC, 2023, New Delhi		Participated and presented 5G models to solve mining problems.
	Innovision 2022 , NIT Rourkela		Finalist
13	IC3S-2023, KIIT, BBSR	Susmita Murmur, Harapriya Sethi	Published a paper in IEEE conference

Also, students are actively involved in different clubs under differentsociety

- 1. Cultural Society- VIBRANZ Club, Souls Club, EMOTICA Club, Art and Photography Club, Literary society etc
- 2. Technical Society- VSSSIC, Robotics, E-cell, Idea club etc.
- 3. Sports Society Yoga , Illumina etc.
- 4. SSG Society Sanskar Kendra, Awareness programme, blood donation camp etc.

5. NSS and NCC activities.

F=Total Number of Faculty Members in the Department (excluding first year faculty)

Note: All the faculty whether regular or contractual (except Part-Time), will be considered. The contractual faculty (doing away with the terminology of visiting/adjunct facul have taught for 2 consecutive semesters in the corresponding academic year on full time basis shall be considered for the purpose of calculation in the Faculty Student Ra following will be ensured in case of contractual faculty:

1. Shall have the AICTE prescribed qualifications and experience.

2. Shall be appointed on full time basis and worked for consecutive two semesters during the particular academic year under consideration.

3. Should have gone through an appropriate process of selection and the records of the same shall be made available to the visiting team during NBA visit

# 5.1.1. Provide the information about the regular and contractual faculty as per the format mentioned

#### 5.6 Innovations by the Faculty in Teaching and Learning (10)

Faculty members employ various teaching and learning processes to effectively engage students and facilitate their learning. Here are some common approach by faculty members:

1. Lectures: Lectures are a traditional teaching method where instructors deliver information to students verbally. They generally use visual aids such as slide whiteboards to enhance comprehension.

2. Discussions: Faculty members often facilitate discussions to encourage active participation and critical thinking among students. This can involve group di debates, or Socratic questioning.

3. Active Learning: Active learning techniques involve students in the learning process through activities such as problem-solving, case studies, role-playing, on experiments.

4. Formative Assessment: Faculty members use formative assessment techniques such as quizzes, polls, class discussions, or concept mapping to enhanc understanding and provide timely feedback for improvement.

5. Flipped Classroom: In a flipped classroom model, students engage with course materials outside of class e.g. videos lectures by NPTEL, SWAYAM etc.

6. Experiential Learning: Experiential learning involves real-world applications of concepts through internships, fieldwork, service-learning projects, or simula

7. Reflective Practice: Faculty members encourage students to reflect on their learning experiences, strengths, weaknesses, and areas for improvement thrc assessment, journals, conferences, short term courses.

5.7 Faculty as participants in Faculty development/training activities/STTPs (15)

## 2022-23 (CAYm1)

Project Title	Duration	Funding Agency	Amount(in Rupees)
Development of hardware s	3years	IITGTIDF, DST, Govt. of Ind	4330000.00
Development of real time at	3 years	DST-SERBSURE, Govt. of	2999940.00
			Total Amount(X): 732994

# 2021-22 (CAYm2)

Project Title	Duration	Funding Agency	Amount(in Rupees)
FPGA Based power quality	3 years	DST, Govt. of Odisha	998000.00
Inspection of wall using coo	2 years	OURIIP, Govt. of Odisha	488000.00
UGC-BSR Research Start ι	3years	UGC, Govt. of India	600000.00
			Total Amount(Y): 208600

## 2020-21 (CAYm3)

Project Title	Duration	Funding Agency	Amount(in Rupees)

# Cumulative Amount(X + Y + Z) =

5.8.3 Development activities (15)

### **Research Laboratories**

### 1. EDA Laboratory

Researchers can utilize EDA laboratory facilities to design and simulate integrated circuits using industry-standard Electronic Design Automation (EDA) software tools. This includes designing digital, analog, and mixed-signal circuits, as well as conducting simulations to verify circuit functionality, performance, and reliability.

The main focused research areas in this domain are:

- Embedded System Design
- Analog IC Design
- Digital IC Design
- System on Chip Design

#### 2. Microwave & Radiation Laboratory

The laboratory provides training and educational opportunities for students, researchers, and industry professionals in the field

of microwave and radiation engineering. The laboratory serves as a hub for applied research and development in microwave

and radiation technologies.

The research area in this domain includes:

- Antenna Design and Optimization
- Microwave circuits and Components
- Microwave Imaging and Sensing
- Wave guide and Transmission Lines

### 3. Wireless Communication Laboratory

The laboratory helps the faculty members and research scholars to focus on designing and optimizing wireless sensor networks for applications in environmental monitoring, healthcare, industrial automation, and smart cities. This includes developing energy-efficient routing protocols, localization algorithms, and data aggregation techniques for WSNs.

The researchers focus in the following domain:

- · Wireless sensor network
- Cognitive radio
- · Wireless network optimization
- Under water communication

#### 4. Digital Signal Laboratory

The laboratory provides opportunities for students and researchers to work on practical DSP applications and projects in diverse domains such as audio/music processing, image and video processing, biomedical signal processing and remote sensing.

The students and faculty members' focuses on the following domain:

- · Image and video processing
- Biomedical signal processing
- Filter design and implementation
- Speech and audio processing

#### 5.8.4 Consultancy (from Industry) (20)

### 5.9 Faculty Performance Appraisal and Development System (FPADS) (10)

Faculty members of Higher Educational Institutions today have to perform a variety of tasks pertaining to diverse roles. In addition to instruction, Faculty member innovate and conduct research for their self-renewal, keep abreast with changes in technology, and develop expertise for effective implementation of curricula. also expected to provide services to the industry and community for understanding and contributing to the solution of real life problems in industry. Another role the shouldering of administrative responsibilities and co-operation with other Faculty, Heads-of-Departments and the Head of Institute. An effective performance system for Faculty is vital for optimizing the contribution of individual Faculty to institutional performance.

The assessment is based on:

- A well-defined system for faculty appraisal for all the assessment years (5)
- Its implementation and effectiveness (5)

Veer Surendra Sai University of Technology (VSSUT) has a well defined system for performance based appraisal system (PABS).

#### **Evaluation criteria for PABS**

- Teaching Process
  - (a) Class taken
  - (b) Scheme of evaluation
  - (c) Course outcome
- Student feedback
- Departmental activitiesInstitute activities
- Academic research score
  - (a) Research publication
  - (b) Book published
  - (c) Research guidance
  - (d) Research Project/Consultancy
  - (e) Patents
  - (f) Invited lectures/Resource Person

### Analysis of PABS and Evaluation

The PABS submitted by faculty members are analyzed by the internal and external committee formed by Hon'ble Vice-Chancellor of our University.

5.10 Visiting/Adjunct/Emeritus Faculty etc. (10)

### 6 FACILITIES AND TECHNICAL SUPPORT (80)

### 6.1 Adequate and well equipped laboratories, and technical manpower (40)

<b>C</b> -	Nome of the	Number of	Name of the	Weekly utilization	Techn	ical Manpower Si	cal Manpower Support

6.2 Laboratories maintenance and overall ambiance (10)

All the laboratories are maintained at normal temperature conditions with proper ventilation. Adequate space is allotted to each laboratory to accommodate the stude Regular maintenance of the laboratory equipments are carried out using some protocols fixed in each laboratory for smooth conduct of experiments. Periodic replac of the components and equipments are done to keep the laboratories upgraded to the latest technologies.

### **Overall ambience**

In VSSUT, Burla Cleanliness and good academic ambiance is the main focus since its inception. Any laboratory has several equipments specific to its domain. Each equipments is well maintained in the due course of time. Any deficit of equipment/test kit is noted at the beginning of the semester and efforts are taken to procure the same. These items need to be purchased periodically as when need arises. Annually each laboratory is monitored for their assets and a status report is prepared. S obsolete components are disposed from time to time. For better learning purposes the number of students allotted per setup is maximum four.

#### 6.3 Safety measures in laboratories (10)

Sr. No	Laboratory Name	Safety Measures
1	Basic Electronics Lab	Safety instructions to the students: 1. Do not hold Electro Static Discharge (ESD) items like semico (diodes. ICs) against the clothing. 2. Don't touch open wires unless you are sure that there is no vo experiment with power from wall plug. 4. Use colored wires of suitable length. 5. Switch off the pow make changes to the experiment even if the voltage is low. 6. After the lab session, switch off every disconnect and disintegrate the experimental setup. 7. Immediately report dangerous and exception instructor. 8. Never use damaged wires, instruments, or connectors.
2	Simulation Lab	Safety instructions to the students: 1. Do not reboot or move any PC. 2. Do not load any unlicensec computer. 3. Do not reconfigure the cabling equipment. 4. Do not leave a logged-in PC unattended be played on any PC. 6. Do not useany external storage device to download any application files w permission.
3	Circuits Lab	Safety instructions to the students: 1. Don't touch open wires unless you are sure that there is no v experiment with power from wall plug. 3.Use coloured wires of suitable length. 4. Switch off the pov make changes to the experiment even if the voltage is low. 5. After the lab session, switch off every disconnect and disintegrate the experimental setup. 6. Immediately report dangerous and exception instructor. 7. Never use damaged wires, instruments or connectors.
4	Microprocessor Lab	Safety instructions to the students: 1. Do not reboot or move any kit. 2. Do not leave the kit unatten the kit without any prior permission.
5	Communication Lab	Safety instructions to the students: 1. General Rules of Conduct in Laboratories are displayed. 2. F extinguisher is kept in the laboratory.3. Avoid the use of cell phones.4. Permission denied for pen d should be turned off properly before leaving the lab. 6. The student must immediately inform the ins defect, error or damage observed at the computer (hardware/software). 7. Do not reboot or move a trainer kit. 8. Do not use the kit without any prior permission.
6	Microwave Lab	Safety instructions to the students: 1. Do not wear loose-fitting clothing or jewellery in the lab. Ring: usual excellent conductors of electricity. 2. Mobile phones should be switched off in the lab. Keep b 3. Keep the labs clean at all times, no food and drinks allowed inside the lab. 4. Intentional misconc expulsion from the lab. 5. Do not handle any equipment without reading the safety instructions. Rea procedures in the Lab Manual before starting the experiments. 6. Do your wiring, setup, and a care before applying power. Do not make circuit changes or perform any wiring when power is on. 7. Av energized electrical circuits. 8. Do not insert connectors forcefully into the sockets. 9. NEVER try to power from the wall plug. 10. Immediately report dangerous or exceptional conditions to the Lab in: Equipment that is not working as expected, wires or connectors are broken, the equipment that sm you are not sure what the problem is or what's going on, switch off the Emergency shutdown. 11.Ne instruments, wires or connectors. Hand over these parts to the Lab instructor/Teacher. 12.Be sure c extinguishers and first aid kits in the laboratory.
7	Instrumentation Lab	Safety instructions to the students: 1. Don't touch open wires unless you are sure that there is no v experiment with power from wall plug. 3.Use colored wires of suitable length. 4. Switch off the power make changes to the experiment even if the voltage is low. 5. After the lab session, switch off every disconnect and disintegrate the experimental setup. 6. Immediately report dangerous and exception instructor. 7. Never use damaged wires, instruments or connectors.

6.4 Project laboratory (20)

The students are permitted duly by the respective laboratory in charge on a request basis, to access and utilize the software/ hardware resources available in different laboratories. Any specific laboratory can be allocated for project-related research and development work, depending upon the project domain. Such allocations are generally made at the time-slots, when there is no routine occupancy of the laboratory for academic sessional activities. These regular laboratories have licensed software: like Xilinx, MATLAB, LabVIEW etc., which are used for simulation purpose whereas hardware based projects are done either in the concerned hardware lab or in project room by issuing components from these labs.

# 7 CONTINUOUS IMPROVEMENT (75)

7.1 Actions taken based on the results of evaluation of each of the COs, POs & PSOs (30)

# POs Attainment Levels and Actions for Improvement- (2022-23)

POs	Target Level	Attainment Level	Observations
PO 1 : Engineering Knowle	edge	1	1
PO 1	2.3	2.3	Target is achieved. However, some courses like Microwave Eng Wireless & Mobile Communication need strong foundations to a knowledge with engineering applications.
Action 1: Students are advis	sed to participate more in technical eve	nts where their basic knowledge of scie	ence and mathematics can be used in engineering-oriented probl
PO 2 : Problem Analysis			
PO 2	2.3	2.3	Target is achieved. Problem-solving and analysing skills are de and second-year courses like Digital System Design, Analog El Design and Testing Lab which help the students to identify and problems.
Action 1: Students are advis advised to design their mino	sed to observe the problems in their su or and major project based on these pro	rroundings (nature, Industries and daily oblems.	life) and find a possible solution/approach to these problems. Ac
PO 3 : Design/developmer	nt of Solutions		
PO 3	2.1	2.1	Target is achieved. More emphasis can be given in design-orie courses like Control Systems, and VLSI Design.
Action 1: Assignments inclu	ding design-based problems may be g	iven. Action 2: Students are advised to	participate in event like Hackathon
PO 4 : Conduct Investigati	ions of Complex Problems		
PO 4	2.1	2.2	Target is achieved. Research-based knowledge and methods of students by mentors or the faculties in the class to have a clear semester courses and projects.
Action 1: Students are motiv	vated to go through a systematic literat	ure review before addressing the soluti	on and developing the algorithms.
PO 5 : Modern Tool Usage			
PO 5	2.0	2.2	Target is achieved. However, still upgradation of tools and reso meet industry standards and research. The target can be incre- batch.
Action 1: Modern labs are d applications in the new indu	leveloped to demonstrate the use of mo istrial era.	odern tools like MATLAB, Multisim, Xilir	hx-vivado, and Microwind to specify fulfillment of the requirement
PO 6 : The Engineer and S	ociety		
PO 6	2.0	2.2	Target is achieved. The courses address the needs of health, s concerns regarding engineering practices in real life. The targe the next batch.
Action 1: More expert talks	can be Conducted on engineering eme	rging topics.	
PO 7 : Environment and S	ustainability		
PO 7	2.0	2.2	Target is achieved. However, the global and environmental issues be improved among students.
Action 1: Students are enco	ouraged to do their undergraduate proje	ects by focusing on the practical probler	ns in society.
PO 8 : Ethics			
PO 8	2.0	2.1	Target is achieved. Although students are proficient in engineer ethical and moral awareness is causing them to lag behind in c as projects.
Action 1: Guidelines about t	he use of legal software, how to prepa	re documents without plagiarism, etc., o	could be distributed.
PO 9 : Individual and Tean	n Work		
PO 9	2.1	2.2	Target is achieved. Students are very much able to work individ courses. At the same time, they perform better in teams during experiments.
Action 1: Students are enco	ouraged to participate in interdisciplinar	y group projects.	
PO 10 : Communication			
PO 10	2.1	2.2	Target is achieved. During the Seminar presentation and Projection be given to improve the communication skills of the students.
Action 1: Through group dis	cussions, presentations, and other me	ans, students can improve soft skills.	
PO 11 : Project Manageme	ent and Finance		
PO 11	2.1	2.3	Target is achieved. Students are able to show off their ability to manage their time successfully by completing their projects wit can be increased for the next batch.
Action 1: Students can be n	nade aware of more proiect and time m	anagement concepts.	•

PO 12 : Life-long Learning

24, 5:21 PM		e - NBA	
PO 12	2.1	2.2	Target is achieved. Many graduates from our department are puin reputed Universities in India and abroad.

Action 1: Talks by experts in different fields can organized for the students, where they can interact with them and have ideas about the present technical scenarios and ful

# PSOs Attainment Levels and Actions for Improvement- (2022-23)

PSOs	Target Level	Attainment Level	Observations
PSO 1 : Apply the knowled engineering problems in the	Ige of electronic circuits, analog and he discipline of Electronics and Teleo	digital communication, wireless cor communication Engineering	nmunication, radar engineering and antenna systems to solv
PSO 1	2.3	2.3	Target is achieved.
Action 1: Students are highl and showcase their technica	y encouraged to base the design of the al skills in various events of our univers	ir major and minor projects on the cour ity like, Tectronix and Samavesh and in	ses they completed as undergraduates. Action 2: Students are a the technical events of other universities.
PSO 2 : Develop suitable t	echniques and cutting-edge enginee	ring hardware and software tools in	Electronics and Telecommunication Engineering to solve pr
PSO 2	2.3	2.3	Target is achieved.
Action 1: In the department, Students are encouraged to	dedicated laboratories can be set up w learn new software and technical tools	ith more upgraded software and hardw during their vacations.	are tools that the students to access for their projects and resear
PSO 3 : Aware of the impa	ct of professional Electronics and Te	elecommunication Engineering solut	ions on social, economic, environmental and technological ؛
PSO 3	2.2	2.2	Target is achieved.
Action 1: The students are e	encouraged to participate in the Hackatl	hon events. Action 2: More expert and t	echnical talks can be Conducted on engineering emerging topics

#### 7.2 Academic Audit and actions taken thereof during the period of Assessment (15)

#### PURPOSE OF AUDIT

- To promote self reflection among all departments/sections/student activity centers of the University being audited.
- -To promote self improvement measures among all departments/sections/Student activity Centres of the University being audited
- To conduct quality checks on different activities undertaken in all departments/sections/Student activity Centres of the University to meet expected outcomes
- · To promote adoption of best practices.

#### SCOPE OF ACADEMIC AUDIT

All departments of University: The departments are expected to have developed a strong outcome based approach in teaching-learning. The audit team will activities involved in developing learning outcomes, design and development activities in curriculum, teaching-learning process, student learning assessment | student engagement programs. The audit team will also assess the quality and quantity of research outcomes during last three years. The audit team will also quality of resources and general ambience from perspective of meeting the learning outcome.

Examination Section: The audit team will assess the process of conduct and document archival in the examination section.

Student Activity Centre: The audit team will assess the process of conduct, document archival and promotion of student support activities and services.

### ACADEMIC AUDIT TEAM

The Academic Audit Team will have following composition

- Two for each department/section/centre (One with credibility in teaching and research; the other one with exposure to accreditation, program administration; preferat belonging to an accredited organization)
- The members may be nominated by Competent Authority of the University.
- The members must be of equivalent rank of Professor

#### AUDIT PROCESS

- · Each Department/Section/Centre will prepare a Self Evaluation Document(SED) and submit it electronically to IQAC cell
- · The Audit team will visit and conduct onsite evaluation through check of documents and interaction with stakeholders.
- The audit report will be prepared citing commendation, affirmation and recommendation for each school/unit.
- · The report will be shared.

7.3 Improvement in Placement, Higher Studies and Entrepreneurship (10)

The Training & Placement cell of VSSUT is proactive in conducting placement drives for students of the university. Various categories of companies ranging from consulting development, support, R&D etc. come and hire students from our institute. Global companies like Deloittee, WindMoller, Amazon, Cognizant, Infosys, TCS, Wipro etc. have our students as their employees. Companies like Infosys, Cognizant, Capgemini, Wipro etc. recruit in Day 1 hiring process. The highest package offered in the past 3 years is Rs.47.38 Lacs by Amazon SDE. Many high paying companies like Goldman Sachs, Google are also there in the list. We also have the advantage of having many core companies visiting and hiring from the campus. These companies include Vedanta, Tata Steel, JSW, Maruti Suzuki, JSPL, Aditya Birla, L&T, Tata Power, J K Paper, Visa Steel, Aquagreen etc.

Apart from placement, T&P Cell also helps students in upgrading their skills to increase their employability chances. Training for students have been conducted in many areas like AIML, Virtual Cloud, Cybersecurity, Data Analytics, RedHat, BluePrism, Robotics etc. In addition to this, the T&P cell has also worked in imparting softskills to the students by conducting training classes on it.

Devementer	CAYm1	CAYm2	CAYm3

8.4 Attainment of Course Outcomes of first year courses (10)

Total Marks 10.00

All the courses offered in the first year of the program curriculum are broadly classified into 3 categories with their individual assessment methods:

8.4.1 Describe the assessment processes used to gather the data upon which the evaluation of Course Outcomes of

1. Theory courses

first year is done (5)

2. Sessional courses

Course outcome attainment for each type of course is discussed below.

Course Category	Type of Assessment	Assessment Tools	Marks	Category	CO Attainment type
		Assignments, Quiz tests (Formative assessments)	20	Cumulative Internal Examination (CIE)	Formative type
Theory	Direct	Mid Semester Examination	30	Cumulative Internal Examination (CIE)	Direct CO Att
		End Semester Examination	50	Semester End Examination (SEE)	(70% weightage)
	Indirect	Course Completion feedback			Indirect CO Att. (30% weightage)

### Data Acquisition Process CO attainment of theory courses:

- For direct CO attainment, all the questions of mid-semester and end semesters are mapped with course outcomes during the preparation of the question paper.
- For the indirect CO attainment, semester-end feedbacks are collected by the department to acquire opinions about each CO from the students.
- Final computation of course outcomes attainment is done using direct and indirect Cos attainments through spreadsheets by the concerned faculty. CO attainment information will be compiled by the course coordinators and information passed on to the School Quality Assurance Cell and Program Assessment Committee for subsequent decisions and actions.
- The calculation for attainments is performed after the declaration of end-semester examination results. All
  documentations related to attainments are maintained by the course coordinators.

8.4.2 Record the attainment of Course Outcomes of all first year courses (5)

Institute Marks : 5.00

Course Outcomes obtained for the first year courses are listed below:

Course	Direct CO Attainme nt	Indirect CO Attainme nt	Final CO Attainment	Target CO Attainme nt	Target achieved (Y/N)

## 9 STUDENT SUPPORT SYSTEMS (50)

#### 9.1 Mentoring system to help at individual level (5)

VSSUT has implemented the Mentor system. Within the system, the student is referred to as a mentee and the teaching member as a mentor. The guidelines for mentors in an effective mentoring system are provided below.

#### 9.1.1 Mentor categories

**Mentor:** The mentors are responsible for managing the mentees registration, academic details, communication with guardians, attendance records, health status, behavior, manners, and promoting brand awareness. They are the primary contacts responsible for receiving and taking the initial measures to address grievances.

**Counseling mentors:** The counseling mentors are responsible for maintaining emotional stability as advised by the mentors.

#### 9.1.2 Mentors Appointment

At the start of the academic year, the HOD of the department will inform the mentors and counseling mentors selected among the faculty members of the department. Guidelines for mentors appointment should be followed.

- A faculty member might be nominated as a mentor for a group of students. The schools head can suggest a demonstrator if they are confident in the demonstrators potential to serve as an effective mentor.
- The optimal group size for undergraduate students is five. HOD has the authority to determine the group size.
- The Head of School will choose counseling mentors from the instructors. A professional counseling mentor has been
  appointed at the university level.

### 9.1.3 Mentors Responsibilities

- To provide a collaborative and encouraging atmosphere for the mentees to enhance their learning and participation in academic activities.
- · Conduct regular meetings with mentees and be readily available to them as required.
- To update the guardians on the students academic performance, attendance, and any disciplinary issues.
- · To notify students and guardians about the organizations accomplishments.
- Assist mentees in gaining a comprehensive understanding of academic programs and necessary regulations.
- Identify chances for students to showcase their skills in discipline-specific or extracurricular activities.
- To guide and strengthen the mentees discipline-specific or interdisciplinary methodologies and abilities.
- · Identify the need for counseling and schedule regular meetings with counseling mentors.

9.2 Feedback analysis and reward /corrective measures taken, if any (10)

Total Marks 10.00

Total Marks 50.00

Total Marks 5.00

Institute Marks : 5.00

Institute Marks : 10.00

Feedback collected for all courses: YES (Twice a year)

Average Percentage of students participate in the feedback process: 75-90%

#### 9.2.1 Feedback Collection Process:

SI. No.	Type of feedback collected	Feedback on Curriculum, Teaching & learning
1	Process of collection	Google form/ Paper Form
2	Medium of notification to students and follow up	Whatsapp/ tutor mentors/class teacher
3	Frequency of collection	Once after end of each semester
4	Department responsible for collection, analysis and action taken	Concerned department/IQAC

FEEDBACK FORM

3. Effectiveness	of the teacher	in terms of:	*		
	Very poor	Poor	Good	Very good	Excellent

Your rating	0	0	0	0	0
		72 572 72			
Make sure that Choose	at you have resp	onded for all	the subjects	in your presen	t semester. *

The feedback collected is shared to HOD for further analysis by a feedback analysis committee. The Analysis of the feedback is obtained in following components.

- Course Objectives
- · General observation
- · Skill Development
- · Innovations and Methodology
- Commitment and Command
- Help and Motivation

#### 9.2.4 Basis of reward/ corrective measures, if any;

- The HOD shares the scores to the faculty members. The HOD provides individual faculty members with personalized feedback to identify their strengths and weaknesses and enhance their teaching skills. An in-depth examination of the score and interaction typically leads to enhancements in teaching and learning.
- If a teacher of a certain course does not achieve a satisfactory score index, the Head of the Department will have a discussion with the teacher. Subsequently, the teachers must modify their content delivery and then report the information back to the HOD.

### 9.3 Feedback on facilities (5)

Total Marks 5.00

Institute Marks : 5.00

The HOD office receives student input on the amenities of the University and department annually once. The feedback collecting is undertaken during the month of April. The form of the report seeks students views on various facilities of department and university. Different facilities for which feedbacks are taken from students are provided below.

- Classrooms and labs (seating, lighting, fans, A/C, ventilation, cleanliness, etc.)
- Teaching aids (Projectors, blackboards, computers, posters, display boards, drawing boards)
- · Washrooms, drinking water, water supply, first aid, etc.
- Hostel
- Internet
- · Canteen and other services
- Sports facilities (Sports items, ground facility, etc.)
- Library facilities
- Medical Facilities

The collected feedback is reviewed at the department level, and if it is poor, the concerned PIC is informed.

9.4 Self-Learning (5)

Total Marks 5.00

The Department of ETC offers extensive opportunities and resources for students to engage in self-directed learning and explore topics beyond the standard curriculum. VSSUT students have 24/7 access to internet and computing capabilities within the University premises all year round. The institution has implemented a framework of learning activities that encourages self-directed learning among students, focusing on various topics across all disciplines.

- · Interactive focus: Activities include of synchronous and collaborative talks, group activities, and assignments.
- Critical thinking: Activities in critical thinking involve doing case studies, field surveys, identifying problems, assessing implications of past research, finding gaps for improvement, and formulating strategies.
- Problem solving: Problem solving involves implementing strategies in real-life situations, understanding constraints, considering social, environmental, legal, and economic implications, analyzing the impact, and solving open-ended problems using simulations and modeling.
- Creation: Creation activities involve designing and implementing tasks at the simulation level, transitioning to hardware implementation, real-time deployment, and studying the resulting impacts.
- Preparation for competitive exams and advanced courses involves engaging in additional self-learning and problemsolving activities.
- Students in laboratories can choose to work on open-ended activities either individually or in groups through microprojects to improve their analytical and design skills, which can be expanded upon in their final year major design projects.
- Students participate in field/industry visits and internships/trainings to familiarize themselves with industry practices, job expectations, and get insight into real-world challenges.
- Students participate in actual multidisciplinary projects at various Centers of Excellence, along with product innovation and entrepreneurial activities facilitated by the Incubator Cell.
- Open coursewares like NPTEL and MIT OpenCourseWare are recommended by lecturers for students to access at any time.
- · Students are encouraged to take an active role in arranging symposia, conferences, seminars, etc.
- Student Societies are active organizations where students design, execute, and coordinate activities that significantly contribute to self-learning. Some societies are referenced in this section.

#### 9.5 Career Guidance, Training, Placement (10)

Total Marks 10.00

Institute Marks : 10.00

VSSUT has provided career consulting, training, and placement services since its establishment. It has an outstanding track record in campus placement. VSSUT is highly regarded as a talent pool for the corporate sector due to its ability to produce students who are well-prepared for the industry. VSSUT has a well-defined framework in place to provide guidance to students for training and placement. Our main goal is to increase industry involvement in academia by implementing various activities to meet the evolving industry requirements.

• Working with Technical Heads, CTOs, and Operational Heads in the industry to provide Industry Engagement initiatives, such as student placements.

- Establishing and launching the student-centered 'Innovation Cell' at the University to cultivate a culture of 'Innovations & Entrepreneurship' among students through organizing advanced lectures, seminars, and workshops in collaboration with industry experts and esteemed academicians from foreign Universities.
- The goal is to create a pathway for entrepreneurs from VSSUT to pursue start-ups.
- Encouraging University researchers to build strong relationships with Industry, Government/Non-Government Organizations, and relevant Community Groups to collaborate on cutting-edge research.
- · Raising awareness about creating intellectual property rights (IPR) and commercializing them, including
- safeguarding and managing patents resulting from research discoveries.
- Establishing a sponsored research consultancy fund in collaboration with multiple corporate entities.
- Establishing cutting-edge laboratories for research and innovation through company sponsorship.
- Establishing connections with corporations to provide training and certification for students, scheduling technical lectures by subject experts, and coordinating industry-sponsored workshops and symposiums for students and professors.
- Providing corporate entities with Leadership/Executive Development Programs and customized learning programs in specific areas of expertise available within the VSSUT faculty.

#### 9.6 Entrepreneurship Cell

Total Marks 5.00

Institute Marks : 5.00

Department of ETC encourages the development of entrepreneurs in a structured manner through the University Entrepreneurship Cell. We support aspiring entrepreneurs who aim to address peoples concerns with innovative technical solutions. We provide a comprehensive learning environment for our students through a variety of activities such as startup presentations, innovation challenges, seminars, techno-business sessions led by successful entrepreneurs, internship camps, and more.

Total Marks 10.00

The university has a Student Activity Centre Council that aims to unite all students for extracurricular activities and to share talent, culture, and innovative ideas. VSSUT Student Activity Centre hosts various events including delegation, workshops, and cultural activities. These events provide opportunities for student organizers to enhance their interpersonal skills like leadership, positive attitude, relationship management, and team management. Furthermore, VSSUT also offers NSS and NCC programs.

10 GOVERNANCE, INSTITUTIONAL SUPPORT AND FINANCIAL RESOURCES (120)

10.1 Organization, Governance and Transparency (55)

Total Marks 120.00

Total Marks 55.(

## **10.1.1 State the Vision and Mission of the Institute** (5)

e - NBA

## VISION

To emerge as an internationally acclaimed Technical University to impart futuristic technical education and creation of vibrant research enterprise to create quality engineers and researchers, truly world class leader and unleashes technological innovations to serve the global society and improve the quality of life.

### MISSION

The Veer Surendra Sai University of Technology, Odisha, Burla strives to create values and ethics in its products by inculcating depth and intensity in its education standards and need based research through

- · Participative learning in a cross-cultural environment that promotes the learning beyond the class room.
- $\cdot$  Collaborative partnership with industries and academia within and outside the country in learning and research.
- · Encouraging innovative research and consultancy through the active participation and involvement of all faculty members.

• Facilitating technology transfer, innovation and economic development to flow as natural results of research where ever appropriate.

- $\cdot$  Expanding curricula to cater broader perspectives.
- $\cdot$  Creation of service opportunities for upliftment of the society at large.

10.1.2 Availability of the Institutional Strategic Plan and its Effective Implementation and Monitoring (25)

Institute Marks : 25.0

#### 1.PREAMBLE

VSSUT Burla was established in 1956 as an engineering college in the name of the University College of Engineering (UCE) to solve a problem in society. As Hirakud Dam, independent India's first multi-purpose river dam was commissioned, there was a need for homegrown engineers to operate and maintain the dam that was meant to control flood, the powerhouse to generate power and a canal system to irrigate vast tract of land.

In the span of 66 years, the University has produced over 40,000 alumni. It has dedicated itself to the infrastructure, industrial growth, and socio-technical development of the state and nation as a whole. The roads, ports, dams, power plants, transmission lines, industries, irrigation projects, and rural electrifications are built-in Odisha with the overwhelming participation of its alumni. It has been playing a key role in the rural and urban developmental programs of the region; it is the central monitoring center for the State Government's programs such as Pradhan Mantri Gramya Sarak Yojana (PMGSY), Watershed projects, etc. Its alumni can be seen in the Boardrooms of leading PSUs and private companies; they occupied top positions in the Indian Army / Navy / Air Force, DRDO, and ISRO; they are on the faculty boards of almost all IITs, NITs, and many foreign Universities.

The University has carved a name for itself for its undiluted and uncompromising approach to education and the intensity of its teaching. In recognition of its contribution to society, the State Government upgraded it to a technical university in 2009. Presently, in addition to its rich undergraduate programs, it has preserved the strong legacy of research culture in terms of Post-graduate and research programmes in all disciplines of science and engineering.

## 2.VSSUT – THE JOURNEY SO FAR

#### e - NBA

The legendary institute had made a modest beginning in 1956 by taking 30 students each in three departments, viz Civil, Electrical & Mechanical, operating from the make-shift workshop of the Hirakud Dam. VSSUT presently offers 10 B.Tech., 22 M.Tech., B.Arch., MCA, and 3 M.Sc. programs, and details with seat strength are attached as **ANNEXURE-1**. Almost all B.Tech. programs are NBA accredited and rests have been applied for accreditation. Today, its students intake is 1644 in B. Tech, M. Tech, M Sc, MCA, Ph. D. and the total student strength on the campus is 4956.

In addition, 150 Research Scholars are pursuing their Ph. D. in various disciplines. VSSUT has been identified as the nodal center of the AICTE Quality Improvement programme for pursuing Ph.D. and also as the center for National Doctoral Fellowship (NDF) Scheme by AICTE. Ph. D. students are enrolled under the NDF scheme from 2018-19.

### 3.THE SWOT ANALYSIS

#### STRENGTHS

### WEAKNESSES

- Undiluted academic standards for 66 years
   Strong and worldwide Alumni network
- Strong and wondwide Admini network
   Performing students beating IIT / NIT students in national-level competitions.
- 4. Adequate quality faculty

THREATS

### 900OPPORTUNITIES

Consultancy

- Inadequate funding for an institute as vast in infra & student base as IIT, or NIT leading to fast degradation
- 2. Peer institutes growing in size
- 3. Reluctance of companies to visit a remote place like Burla for Placement
- 1. Massive industrialization in Odisha asking for more quality engineers
- 2. ~ 300 Acre Land for expansion

1. Inadequate, aged Infrastructure

2. Outdated Lab equipment, software

3. Absence of specialized R & D labs

4. Inadequate IPR, Sponsored Research &

5. Inadequate student recreation facility

6. Weak academic Outreach

- 3. Surrounded by institutes & industries
- Attitude of students toward Rocketry, product development, Entrepreneurial spirit, Incubation

## 4. WINGS OF TRANSFORMATION AT VSSUT

In line with the Nation Education Policy -2020, VSSUT plans to expand its wings in line with a large-scale Multidisciplinary Education and Research University (**MERU**) to serve a larger mass of students of Odisha who are aspirants to pursue quality education at an affordable cost.

#### a. Increased intake at B. Tech. Level

VSSUT aspires to offer more B.Tech. Programs that are relevant in today's time and increase the student strengths in excess of 10,000 on the campus by 2028.

	Current po	sition in 2022	Projecti	on by 2028
Programs	Intake	Students Strength	Intake	Students Strength
B. Tech. + B. Arch.	996	3810	2083	8332
M. Tech.	396	792	396	792
M.Sc. (2 yrs)+MCA	102	204	120	240
Ph.D.	150	150	500	1500
TOTAL	1644	4956	3116	10,864

#### b. Projection for other performance parameters

Parameters	Present	By 2028
		-9
On-time Graduation	85%	95%
GATE/ NET	400/	con/
Coverage	40%	60%
Career & Placement	80%	95%

		Manufacturing
NIRF Ranking	116	Top 50 in India

NBA Accreditation	10 UG Courses 03 PG Courses	All UG & PG courses
NABL Accreditation	-	10 Labs
New Programs	02	11 UG and 5 PG programs
Faculty Hiring	220	550 (1:15 as per AICTE norms)

## c. Multi-Disciplinary Character

Subsequently, besides Engineering and Sciences, it aspires to open a School of Medical Technology on one campus – making it a true **Multi-Disciplinary Institute**.

### d. Skill Development Centre

VSSUT aspires not only to produce quality graduates in Engineering, and Medical Technology but also wants to open its laboratory facilities, faculties, and innovative students to equip the Diplomas and ITIs of Odisha with the necessary skills to be entrepreneurs or be Industry- ready.

#### e. Setting up R&D Laboratories in association with Industries

VSSUT aspires to be a cutting-edge Research Centre in association with MCL, Vedanta, Hindalco, and TPWODL. The lab will be dedicated to develop solutions by our faculty and students. It will also help to have result-oriented collaboration with the industry.

5.Step by Step Methodology for Execution

#### a. Creation of various Schools (in the immediate term)

For optimum sharing of knowledge and resources such as faculties, laboratory facilities. Conferences etc., it is envisaged to put together a similar family of departments, e.g. Computer Science and Engineering, IT, MCA are clubbed under the School of Computer Science and Engineering; Mechanical Engg, Manufacturing, Production, Metallurgy, etc. are clubbed under School of Mechanical Science. Each school will be operated from a single building, be headed by a Dean. This will de-centralize the control of VC and bring tremendous synergy among departments.

SI#	Name of the School	Name of the Branch	
		Computer Science & Engineering	
		Computer Science & Engineering	
		(Artificial Intelligence & Machine

# b. Creation of Centres of Excellences - (in Immediate Term)

Quantity is a critical mass, but quantity alone does not make a good University; Research must strive on the campus and new products/solutions must be evolved to serve the society. In line with this goal, each school will have more than one center of excellence (COE). The CoEs will be based on society-relevant areas like IoT, Augmented Reality/Virtual Reality, Steel making etc. COEs will facilitate research in the frontier areas where faculty and students will work on real-life industry problems. Further, these COEs will work on developing cost-effective products for the benefit of the community. The incubation and innovation cell will be strengthened further to attract more innovative projects like one existing from ISRO.

A striking feature is – each of these CoEs will have partnerships with a few industries in the same field and will have a few Alumni as mentors.

CoEs under the School of Computer Science and Engineering		
Centres of Excellence	entres of Excellence Industry Mentor Proposed Industry (Alumnus) Partnership	

ют	Sambit Patra (IoT, Intel)	IBM, Intel, Sankalp Semiconductors
Block Chain	Debjani Mohanty (Collabera)	Tech Mahindra, Deloitte
AI & ML	Rakesh Barik (Deloitte), Dhirendra Bhupati (Microsoft, USA)	NVidia, Deloitte, Microsoft, Google
AR & VR	Dhiraj Sinha (Capgemini)	Capgemini

CoEs under the School of Electrical Sciences		
Centres of Excellence	Industry Mentor (Alumnus)	Proposed Industry Partnership
Power Generation	Jaydev Nanda (Adani Power)	NTPC, OPGC, OHPC
Insulation Integrity	Ashesh Padhy (JSW)	NTPC, OPGC, OHPC
Semiconductor & VLSI	Anup Nayak (USA)	Qualcomm, Intel, Foxconn
Power Electronics	RP Sasmal (Ex-PGCIL), Sudhansu Kannungo (Schinder Electric)	ABB, Honeywell, Schinder Electric, Siemens
Communication, 5G	Pramod Panda (BSNL), Sasi Panda (CISCO, USA), Manoj Mohanty (JIO)	JIO, Siemens, Samsung, CISCO
Drone Technology	Om Prakash (IG Drones)	IG Drones

CoEs under School of Mechanical Sciences		
Centres of Excellence	Industry Mentor (Alumnus)	Proposed Industry Partnership
Robotics & Mechatronics	Naveen Gupta (Merc Benz)	L&T,ABB, Honeywell,
Welding Technology	Rashmi Mohapatra (Teams)	Kempee
Smart Manufacturing (Industry 4.0)	Sibhasis Maity (Ex-CTTC)	L&T, Tata Steel
Automotive & EV	Tapan Sahu (Maruti Suzuki)	Maruti
Space Technology	Bijan Das (Ex-ISRO), Binay Das (DRDO ECS)	ISRO, DRDO
Tribology, Vibration analysis	Rakesh Das (Tata Auto Components), Sushant Panda (IIT Kharagpur)	SKF, Tata Technologies

CoEs under the School of Infrastructure and Planning		
Centres of Excellence	Industry Mentor (Alumnus)	Proposed Industry Partnership
Rural Development & Sustainable Technology	Sutapa Pati ( Xavier School of Sustainability), Alok P	XIMB, Bhubaneswar
Smart City Design	JK Kapoor (Centre of Town Planning)	GoO, Gol, KPMG, EY, Deloitte, JUSCO

Smart Irrigation	Nanda Mohapatra (Ex- DoWR)	DoWR
Sustainable Habitat Planning	J K Kapoor	Housing and Urban Affairs, GOI

CoEs under the School of Earth & Environmental Sciences		
Centres of Excellence	Industry Mentor (Alumnus)	Proposed Industry Partnership
Mineral Processing	Ashesh Padhy ( JSW)	JSW Steel, Roongta
Steel Making	SS Mohanty (Ex-SAIL)	Tata Steel, JSPL, Arcelor Mittal
Aluminum Making	SB Nayak (Ex-NALCO), JK Mohanty (Ex-Vedanta), Athar Shahab (Ex- Vedanta)	Vedanta, Aditya Aluminum, NALCO
Disaster Management		DoWR, NDRF

CoEs under the School of Chemical & Bio Sciences		
Centres of Excellence	Industry Mentor (Alumnus)	Proposed Industry Partnership
Bio-Medical Engg		VIMSAR
Petroleum Engg.		IOCL

CoEs under the School of Humanities & Basic Science		
Centres of Excellence	Industry Mentor (Alumnus)	Proposed Industry Partnership
Nuclear Science		BARC, NPC
Tribal Welfare		
Environment		

## c. Skill Development Centre (in Immediate Term)

VSSUT has a plan to establish a Skill Centre to train the unemployed Diploma/ITI/ Matriculates in Welding, Drone survey, Automobile, Transformer Repair and Design, Textile Fabric design, Medical Technology, and Apparel design to make them industry-ready and inculcate the spirit of entrepreneurship. Our own students and faculty will impart training to these employable youth of Odisha.

## d. Adding School of Medical Technology (in the Long term)

After the Campus is expanded and the Engineering stream is consolidated, the next step would be to use the existing Academic building for opening a Medical College to roll out at least 1000 doctors a year. VSSUT School of Medical Technology will collaborate with VSSUT School of Engineering to produce cutting-edge products such as artificial limbs, artificial respirators, Robot-based based surgery, quick tests for Cancer, etc. At the same time, VSSUT School of Medical Science will derive synergy from nearby VIMSAR to produce cutting-edge research.

6.ADDITIONAL INTAKE VIS-À-VIS OPERATIONAL EXPENDITURE

Academic Year	Sanctioned Intake	Increase in Intake	Cumulative Intake
2022-23	120	140	140
2023-24	120	140	280
2024-25	120	140	420
2025-26	120	140	560
2026-27	120	140	700
2027-28	140	160	860
2028-29	200	240	1100
TOTAL	940	1100	

b. Operating Expenses of Faculty, Non-Teaching Staff, and Teaching Assistants (TAs)

Due to an increase in intake of 1100 B.Tech. students, the faculty requirements will be 188 as per AICTE norms with STR 1:20. However, the faculty requirement will be optimized to 127 by adopting the following:

i. Large classrooms of size 150 with advanced ICT facilities

ii. Lab size to accommodate 60 students in one slot to optimize Technical Assistants

iii. Engage TAs with M.Tech. who will pursue Ph.D. and will be trained in Teaching- Learning to produce quality teachers of the future.

Accordingly, the OPEX is computed for the need of faculty, Non-teaching staff, and TAs as,

Academic Yea r	Incr Intak e	Faculty 01:20	Facult y Added	Staff add ed	TAs M.Tec h.	Faculty Salary(Cr )	Staff Salary	TAs salary( Cr)	Total OPEX(Cr )
2022-23	120	24	15	6	5	2.88	0.36	0.3	3.54
2023-24	120	24	30	12	10	5.76	0.72	0.6	7.08
2024-25	120	24	45	18	15	8.64	1.08	0.9	10.62
2025-26	120	24	60	24	20	11.52	1.44	1.2	14.16
2026-27	120	24	75	30	25	14.4	1.8	1.5	17.70
2027-28	140	28	95	36	30	18.24	2.16	1.8	22.20
2028-29	200	40	127	42	35	24.384	2.52	2.1	29.00

c. Increase in Operating Expenses year-wise due to the successive increase in intake

Head	2022-23	2023-24	2024-25	2025-26	2026-27	2027-28	2028-29
House Keeping	0.24	0.48	0.72	0.96	1.2	1.44	1.75
Security Services	0.24	0.48	0.72	0.96	1.2	1.44	1.75
Gardening	0.24	0.48	0.72	0.96	1.2	1.44	1.75

d. Resource Generation

(e) Comparative Analysis

Presently, the university has 143 acres of land out of which the existing buildings (academic, residences, and hostels) are in 95 acres and 48 acres are available. Another 80 acres of land in continuum to the existing campus has been identified and requested for transfer. If the proposed 80 acres will be available, a total of 128 acres would be used for expansion as per IDP submitted.

The existing public road bifurcates the existing campus and is used by the students, staff, and faculty to commute to academic campus from hostels and residences respectively. During the peak academic hour, there always exists high risk of accidents as it happened many a times in the past, where students have sustained major injuries. With the implementation of the IDP, the student strength would be doubled and so also the risk. Hence, it is suggested to reroute the said public road outside VSSUT premises on the bank of the power channel. It may be further noted that SDA has planned a ring road, which would bisect the proposed extended campus of VSSUT (80 acres). Hence, it is also requested to realign the proposed ring road in the similar fashion to outside the proposed extended campus of VSSUT.

It will enable to have a monolithic and integrated campus like other institutes of repute, eliminating the public trespass and thoroughfare.

This layout envisions:

- There will be seven Schools out of which three Schools (Electrical Sciences, Earth & Environment Sciences, Infrastructure and Planning (partially)) would be operating from the existing Academic Building. This existing academic building will also operate as Skill Development Centre to impart skills to the Diplomas, ITIs, and unemployed youth. There will be a classroom complex and a laboratory complex.
- A new campus would be created in the proposed new land. It has been planned as a Heritage Campus. This will have 4 nos. of G + 4 buildings (provision for 5 buildings) of equal size and shape, the design is inspired by the Konark Wheel. The balance 4 Schools (Computer Science, Chemical and Bio Sciences, Mechanical, and Civil) will operate from this new campus. Each School will be headed by a Dean; a single building will encompass the classrooms, laboratories, Centre of Excellence, Conference Halls, Faculty chambers related to the one School.
- The Vice Chancellor's office would be in easy accessible location to all Schools, and will house the Registrar & his / her office, CFO & his / her office, Examination Section, Administrative Section, Establishment Section, etc.
- All other academic elements e.g. the Library complex, Training & Placement, Central Research Centre, Convention Centre, Workshop with state-of-art Fab Lab, etc will come around this Central Plaza.
- All other amenities such as additional hostels, Auditorium, Students Activity Centre, Food Plaza, Shopping Centre, Indoor Sports Stadium, Guest House etc. will come at suitable locations in proximity to the Central Plaza.
- The new high-rise G + 10 residences faculties, non-teaching staff, Club House etc. will come at the existing colony after demolishing the 60-years old and heavy- maintenance-prone residences.
- Adequate allocation shall be made to renovate old academic buildings, and old hostels, as well as revamping of Laboratory equipment.
- It is presumed that it would take 5 years to complete the above works. Once completed, the existing but renovated building shall be released to open a School of Medical Technology (50 students a year, a total strength of 250).
- · Establishment of CoEs in schools

ANNEXURE-

# 8.CONCLUDING REMARKS The undiluted teaching ethics, great learning culture, alumni performance, and competitive attitude of the students have earned VSSUT (formerly UCE) its place among the ivy club of IITs, NITs, IISc, or IIEST Shibpur - despite the fact that it is a State-funded institution. In Odisha, it is the only Government Engineering Institute that has a NIRF rank of 111 (only Govt institute behind NIT Rourkela and IIT Bhubaneswar).

When State is poised for unprecedented growth in industry and economy under the leadership of our visionary Chief Minister, VSSUT aspires to play a key role in this growth story by becoming a multi-disciplinary University (MERU). It envisions to be a Factory not only for Engineers but also to become a Skill Development Centre for ITIs & Diplomas of the zone for improvement in their employability and entrepreneurship. Further, it wants to become a Diagnostic Centre for the Industries, a breeding ground for Low-Cost Revolutionary products, and a Nodal Centre for developing schemes for Rural and Urban Odisha.

	Total			134

F. Renovation of old buildings and laboratories: Rs. 56 Crores

SI	Particulars	Estimate in Rs Cr
1	Repair of 6 old hostels (65 yrs old)	6
2	Repair of the academic building	25
3	Upgradation of aged outdated Lab equipment	25
	Total	56

G. CAPEX for additional Components: Rs. 60 Crores

CI#	Particulara	Cost in
51#		Crore
1	Land Grading, Roads, Drains, Horticulture	50
2	Dedicated 33 KV Power Supply	10
	Total	60

Implementation Plan

A. PHASE I: (July 2022-December 2025)

Particulars	Cost in (Crs)
School of Computer Engg	84
School of Mechanical Engg	84
School of Chemical and Biosciences	84
School of Infrastructure and Planning	60
School of Humanities and Social Sciences	50
Office of VC ( + Admn, Fin. Exam)	60
Classroom Complex	88
Laboratory Complex	88
	Particulars         School of Computer Engg         School of Mechanical Engg         School of Chemical and Biosciences         School of Infrastructure and Planning         School of Humanities and Social Sciences         Office of VC ( + Admn, Fin. Exam)         Classroom Complex         Laboratory Complex

e - NBA

	TOTAL	1496
12	Roads, land Grading, Dedicated Power Supply	55
11	Renovation of old Hostels, Academic Infrastructure, and Equipment	48
10	Hostels and dining space	475
9	Residences for teaching (400) and non-teaching staff (200)	320

After Phase I construction, 740 UG seats will be increased in first-year admission in academic session 2026-27. Lateral Entry (LE) seats will be increased by 120 seats in academic session 2027-28.

B. PHASE II: (July 2025-December 2027)

SI#	Particulars	Cost in (Crs)
1	Setting up of COEs (Equipment)	60
2	CAPEX for Academic Elements	23
3	Residential houses for teaching (100) and non- teaching (50) staff	80
4	Hostels and dining space	100
5	School of Electrical Engg (Furniture + Equipment etc.)	14
6	School of Earth & Environmental Sc. (Furniture + Equipment etc.)	10
5	CAPEX for Co-Curricular and Extra Curricular Amenities	64
	TOTAL	351

After phase II construction, 400 seats will be increased in academic session 2028-29.

C. PHASE III: (July 2027-July 2029)

SI#	Particulars	Cost in (Crs)
1	Setting up of COEs (Equipment)	10
2	CAPEX for Co-Curricular and Extra Curricular Amenities	70
3	CAPEX for Academic Elements	60
4	Renovation of Old Bldgs and laboratories	08
5	Roads, land Grading, Dedicated Power Supply	05
	Total	153

The Institutional Development Plan (IDP), having received the blessing of the Honorable Chief Minister of Odisha, is now poised for action. In the initial phase, the Industrial Development Corporation of Odisha (IDCO) has set forth a tender for infrastructure enhancement. A vigilant committee oversees the execution of this plan. Additionally, the Department of Skill Development and Technical Education, as the parent entity within the Odisha government, conducts monthly reviews to ensure the successful realization of this transformative endeavor.

# STUDENTS GRIEVANCE REDRESSAL

Student Grievance Redressal Committee (SGRC)

- · Dean, Academic Affairs Member-Convenor
- Dean, PGS & R Member
- · Dean, Faculty & Planning Member
- Dean, CDCE Member
- · Dean, SRIC Member
- · Controller of Exams Member

Note: In of case of any emergency, the aggrieved is free to go to Vice-Chancellor directly.

Dean, Students' Welfare, VSSUT has been appointed as the 'OMBUDSPERSON' of the University. The 'OMBUDSPERSON' shall hear and decide the appeals of student(s) against the decision(s) of the 'Student Grievance Redressal Committee' (SGRC).

The above committee will only deal with student grievances that are not adhered in purview of Internal Complaints Committee, Anti-Ragging Committee, SC/ST Committee and Disciplinary committees.

The Committee can also address grievances from applicants to admission for various programs. The committee can address individual as well as collective grievances of the students of the University.

List of various level for addressing the issues on grievances are as under:-

Grievance	FIRST LEVEL	SECOND LEVEL	THIRD LEVEL

#### e - NBA

Particular Course Related	Concerned Heads	Dean Academic Affairs	
Academics Related	HoDs concerned/CoE	Dean Academic affairs	
Halls of Residences / Facilities Related	Asst Warden/Warden	Dean Student Welfare	
Mess affairs	Asst Warden/Warden	Dean Student Welfare	
Ragging Warden/Dean Student welfare		Anti Ragging Cell	Student Grievance Redressal Committee' (SGRC)
Student Clubs/Societies Faculty Advisor/Vice- President		Dean Student Welfare	
SC/ST Complaint	SC-ST Cell https://vssut.ac.in/doc/SCST_Ce 05-07-2020.pdf (https://vssut.ac.in/doc/SCST_Ce _05-07-2020.pdf)		
Sexual Harassment	Internal Complaints Committee https://www.vssut.ac.in/icc.php (https://www.vssut.ac.in/icc.php)		

#### 10.1.5 Delegation of financial powers (5)

The financial powers delegated to the Vice chancellor, Registrar, The Comptroller of Finance, Deans, Heads of Departments, Hostel Wardens and relevant in-charges of the institution are explicitly mention in the VSSUT Act (https://vssut.ac.in/doc/VSSUT\_ACT.pdf (https://vssut.ac.in/doc/VSSUT\_ACT.pdf)) and Statute (https://vssut.ac.in/doc/VSSUT-Statute.pdf (https://vssut.ac.in/doc/VSSUT-Statute.pdf)).

10.1.6 Transparency and availability of correct/unambiguous information in public domain (5)

The correct/unambiguous information on policies, rules, processes to stakeholders is made transparently available in public domain at https://www.vssut.ac.in/ (https://www.vssut.ac.in/) (University website)

10.2 Budget Allocation, Utilization, and Public Accounting at Institute level (15)

#### 10.2.3 Availability of the audited statements on the institute's website (5)

received from the Govt. are subject to Local Fund and Comptroller and Auditor General (CAG) audit from time to time.

10.3 Program Specific Budget Allocation, Utilization (30)

https://enba.nbaind.org/SARTemplates/eSARUGTierIPrint.aspx?Appid=8659&Progid=1429

The University prepares budgets under the head Plan & Non-plan for all the departments based on the minimum requirement. The budget is bi-annually submitted to Govt. for their consideration. The Accounts Section of the University also provides the budget for salary of both teaching and non teaching staff members under non-plan head. The budget is prepared by the statutory Finance Committee by collecting individual budget from all departments, schools, sections and central accounts as per issued directives. Budget is allotted to each department towards up-gradation of laboratories, laboratory consumables and repair of laboratory equipment etc., internal adjustments are made as per the urgency, in specific cases. Thrust is given on development of infrastructure, academic development programme, research, etc. Each laboratory maintains its own record in the form of stock re ased on the bı future projects.

10.2.1 Adequacy of budget allocation (5)

#### 10.2.2 Utilization of allocated funds (5)

The allocated funds have been utilized for the purchase of new laboratory equipment (computers), software, training and travel and other miscellaneous expenses for academic activity.

Actions for procurement of lab equipment, up-gradation of existing lab facilities, purchase of consumables etc. are initiated from the respective departments and the funds are released on proposal basis on recommendation by committees and approval by the Vice Chancellor/ BOM as per the allocated financial power. Major works like construction, up gradation of existing infrastructure, procurement and maintenance of common utilities, house-keeping, procurement of furniture etc. are controlled by the central facilities such as Central Stores, Central Computing Facility, Civil Works and Electrical Maintenance. The budget amount is allocated for the creation of capital assets and to cover operational expenses according to budgetary guidelines. Capital assets encompass items such as laboratory equipment, study resources, and laboratory facilities. Operational expenses include salaries, research promotion, maintenance, spares, and other relevant expenditures. The utilization heads are detailed in the audited statements of accounts for each year. The utilization certificate is regularly submitted to Govt. of Odisha after due utilization of funds every year.

During the last three years, the budget was utilized to meet expenses such as staff salaries, infrastructure

#### 10.3.1 Adequacy of budget allocation (10)

At the onset of the financial year, each department and unit compiles budget needs classified into recurring and non-recurring categories. These allocations are subsequently determined according to the existing funds. Oversight of expenditure falls under the purview of the Comptroller of Finance, who has the authority to approve additional allocations for specific situations. The institution diligently tracks expenses to ensure vital requirements are fulfilled while upholding the institutions operational efficiency.

At the commencement of the academic session, the Heads of Departments are informed about the allocated funds for their budget proposals. This includes funding for significant projects such as construction, infrastructure upgrades, procurement and maintenance of utilities, and housekeeping etc.

Institute Marks : 10.00

### 10.3.2 Utilization of allocated funds (20)

At the onset of the academic session, all department heads receive notifications regarding the allocated funds for their budget proposals. The procurement of laboratory equipment, consumables are undertaken by the Head of Departments with due procedure mentioned in VSSUT Act (https://vssut.ac.in/doc/VSSUT\_ACT.pdf (https://vssut.ac.in/doc/VSSUT\_ACT.pdf) and Statute (https://vssut.ac.in/doc/VSSUT-Statute.pdf (https://vssut.ac.in/doc/VSSUT-Statute.pdf)). Significant projects such as construction, infrastructure upgrades, procurement and maintenance of utilities, housekeeping, and furniture acquisition are overseen directly by the Comptroller of Finance in collaboration with the Heads of Schools, Deans and Registrar. The Head of the Department is provided with an imprest money to meet day to day expenses and the Departments manage their own imprest accounts.

10.4 Library and Internet (20)

# Library overview

The library building is a three storied having area of 10,900 sq.m. The Ground floor is used for the Circulation Section, Stack area, Reprographic Section, and the General Book Bank. The first floor houses the Acquisition Section, Journal Section, Magazine & Newspaper section, and the Administrative Section of the Library. The top floor is used for E-resource Centre, Reference section, Text Book Section and SC/ST Book bank, Reading Room.

# Library Services (Accessibility and Support to students for self learning activities):

- · Web OPAC is used by library patrons to search for materials without a librarians assistance. It is designed to be searched by title, author, subject, or keyword in an interface that is more user-friendly than the previous card catalog.
- · Access to a wide range of physical and digital resources such as books, journals, databases, and multimedia materials.
- · Assistance with information retrieval, including help with searching for and locating relevant sources for research projects.
- · Reference services, where librarians are available to answer questions and provide guidance on research strategies.
- · Interlibrary loan services (DELNET), allowing users to request materials from other libraries if they are not available in the universitys collection.
- · Instructional sessions and workshops on topics such as information literacy, citation management, and research skills.
- Access to study spaces, computer workstations, and printing, scanning, and photocopying facilities.
- · Online resources and services, including access to e-books, e-journals, and online databases, as well as virtual reference assistance.
- · Research support services available to the users to enhance their research work through IRINS VIDWAN Database.
- Institutional Repository (Dspace): 9626 nos of bound volume journals are accessible to users.
- · Access to the Lecture videos from NPTEL and other open course wares
- Access to the National Digital Library of India.

Institute Marks : 10.00

Name of the Internet provider and Bandwidth: Currently 2 ISPs provider and bandwidth provided by the ISPs providers are as follows:

1Gbps Internet connectivity from BSNL

1Gbps Internet connectivity from SIFY

Currently VSSUT is having a dedicated internet connectivity of 2 Gbps.

#### Wi Fi availability:

The controller and access points are used in the Hostels of the University to provide uninterrupted internet access to the students for their academic and research work. Wi-Fi and LAN is provided to the academic and administrative buildings for faculty and staff members for their research and administrative work.

**Networking**: OFC / Ethernet connection from CIF Cell to all campuses. It is a secure network and each user has authentication for accessing our network. The networking switches are used at different campuses. The network backbone is illustrated as below.

Security arrangements: As far as the security is concerned VSSUT provides the security at different levels of distribution to the client level. It has Core Layer switch, Firewall and CISCO controller for protecting students and staffs members from being affected from any DOA attack, hacking from outside and inside VSSUT. It also prevents malware and virus attacks. Intrusion Prevention System threat-detection, URL filtering, Web content filtering, application filtering, and signature based filtering.

Annexure I (A) PROGRAM OUTCOME (POs)

Engineering Graduates will be able to:

e - NBA

1. Engineering knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.

2. Problem analysis: Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.

3. Design/development of solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.

4. Conduct investigations of complex problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.

5. Modern tool usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.

6. The engineer and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.

7. Environment and sustainability: Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

8. Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.

9. Individual and team work: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.

10. Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

11. Project management and finance: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.

12. Life-long learning: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

#### (B) PROGRAM SPECIFIC OUTCOME (PSOs)

Program should specify 2-4 program specific outcomes.

PSO1	Apply the knowledge of electronic circuits, analog and digital communication, wireless communication, radar engineering and antenna systems to solve complex engineering problems in the discipline of Electronics and Telecommunication Engineering
PSO2	Develop suitable techniques and cutting-edge engineering hardware and software tools in Electronics and Telecommunication Engineering to solve practical problems.
PSO3	Aware of the impact of professional Electronics and Telecommunication Engineering solutions on social, economic, environmental and technological sustainability.

# Declaration

The head of the institution needs to make a declaration as per the format given -

• I undertake that, the institution is well aware about the provisions in the NBA's accreditation manual concerned for this application, rules, regulations, notifications and NBA expert visit guidelines inforce as on date and the institutes hall fully abide by them.

- It is submitted that information provided in this Self Assessment Report is factually correct.
- I understand and agree that an appropriate disciplinary action against the Institute willbe initiated by the NBA. In case, any false statement/information is observed during pre-visit, visit, postvisit and subsequent to grant of accreditation.

#### Head of the Institute

Name : Prof. Banshidhar Majhi Designation : Vice Chancellor Signature :

Seal of The Institution :

Vice-Chencellar KSL University of Technology Borle, Semisology, Odisho-NBMU

Place : Burla Date : 13-08-2024 13:04:10
