

NOTICE

For Students Appearing Remote Proctored (AI and Human Proctoring) Online Examinations

It is observed that some students are logging from two devices simultaneously, which is creating problems to them during login with respect to verification of image. Thus students are advised to use a single device having webcam/camera for login. Use of laptop may be preferred to avoid image uploading issues in mobile phones. **In addition to above students are once again advised to go through the “Guidelines on On-Line Examinations through Desktop / Laptop / Mobile Examination: 2020-21”.**

As per system generated report, list of students who are logged in multiple devices simultaneously during the examinations held on 03-07-2021 are attached. **They are cautioned not to login in multiple devices simultaneously.**
