

# **INTRODUCTION**

### **ABOUT TECHgium®**

"TECHgium<sup>®</sup> is an open innovation challenge which provides students an opportunity to work on major engineering challenges being faced by the industry today. The initiative was first launched by LTTS in 2016. The Seventh edition of TECHgium<sup>®</sup> saw over 36000 students from over 500 reputed Engineering institutes across the globe participating in the event. The primary objective of the initiative is to ignite young minds and provide exposure to real challenges faced by the global industry, thereby making it more than just a project or a challenge. Through this platform, students will get an invaluable opportunity to work on futuristic technologies and augment the solution development team of LTTS, while getting recognized as a TECHgium<sup>®</sup> innovator. Importantly, LTTS is helping build a talent pool who will bring a practical solutions mindset to the industry and not limit it just to theory. Supporting them would be the faculty and top industry experts, thereby exposing them to the industry early in their career.

#### WHAT IS TECHgium®

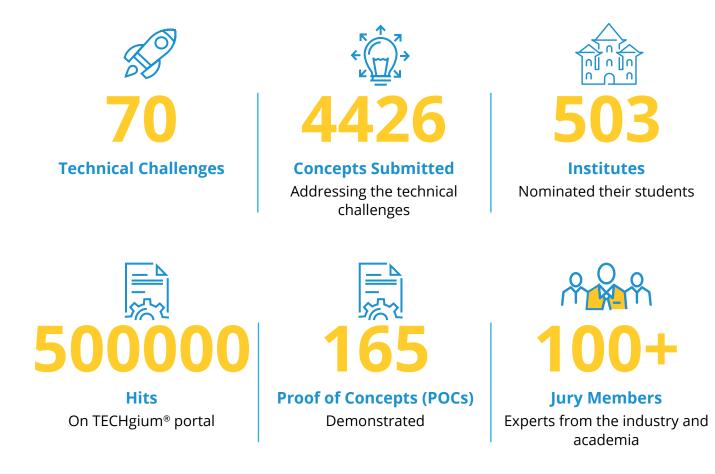

- Collaboration with academia through open innovation
- Developing innovative solution for Industry Challenge
- Pre-placement process for teams which qualifies [for POC demonstration round] and demonstrates POC

### **OBJECTIVES OF TECHgium®**

- Creation of best-in class innovative solutions for industry challenges
- Addressing current and future needs/challenges
- Creation of new breed of associates with niche engineering skills/capabilities

# A GLIMPSE OF TECHgium<sup>®</sup> 7<sup>TH</sup> EDITION

The flagship TECHgium<sup>®</sup> event in 7<sup>th</sup> Edition met with a great response from the engineering student community. Over 4400 concepts were submitted by the engineering students across 500+ institutes and 165 POCs were eventually shortlisted by the panel.

Students Participated in TECHgium<sup>®</sup>7<sup>th</sup> Edition

### ABOUT L&T TECHNOLOGY SERVICES

L&T Technology Services Limited (LTTS) is a listed subsidiary of Larsen & Toubro Limited focused
on Engineering and R&D (ER&D) services. We offer consultancy, design, development and testing
services across the product and process development life cycle. Our customer base includes 69
Fortune 500 companies and 57 of the world's top ER&D companies, across industrial products,
medical devices, transportation, telecom & hi-tech, and the process industries. Headquartered
in India, we have over 22,200 employees spread across 22 global design centers, 28 global sales
offices and 99 innovation labs as of March 2024
