## 5. Scroll down to see the Problem Statement

The screenshot shows the homepage of the Bhashini Mizo Language Model Training Hackathon. The browser address bar displays the URL `bhashini.gov.in/sahyogi/hackathon/mizo-hackathon`. The header includes the Government of Mizoram logo, the Bhashini logo, and navigation links for About, Problem Statement, Stages, Process & Criteria, and Prize. A green 'Register' button is located in the top right corner. The main content area has a green background with a white grid pattern. It features the text 'LAUNCHED 12TH SEPTEMBER, 2025' and the title 'MIZO LANGUAGE MODEL TRAINING HACKATHON' in large white letters. Below the title, it says 'Developing Advanced AI-Powered Solutions to Improve Mizo Language Translation, Speech Recognition, and Synthesis'. Two light green boxes highlight 'AI Powered Language Solution' and '₹90,00,000 Prize Pool'. A white 'Register Now' button is centered below these. A large grey arrow points from the 'Register Now' button down to a banner at the bottom. The banner has a dark green background with the text 'Interested participants can explore the exciting opportunity' and a 'LATEST UPDATES' section on the left. Navigation arrows are visible in the bottom right corner.

## Problem Statement

### AI-Driven Translation and Speech Models for Mizo Language

The Mizo language, widely spoken in Mizoram and surrounding regions, faces challenges in digital representation due to limited high-quality datasets and the lack of robust AI translation and speech technologies. Existing AI models struggle with grammatical accuracy, contextual fidelity, and cultural nuances, which hampers their use in education, governance, and digital communication. To address these gaps, an AI-powered approach is needed to collect, validate, and utilize diverse linguistic data for improving translation, speech recognition, and synthesis models. This will ensure culturally accurate, accessible, and scalable solutions for Mizo language in the digital ecosystem.
