INTERNSHALA INTERNSHIP

Dear Prof.Dr P. Nanda,

To provide your students a glimpse into the Indian startup ecosystem and help them build entrepreneurial abilities, we have launched India's Best Startup Internships ([IBSI](#)).

In association with AICTE & Amazon Web Services, we have handpicked 10 best startup internships in India. Students selected for these internships would be a part of the ground breaking progress being made in the fields of Autonomous Driving, IoT Blockchain Solutions, Artificial Intelligence and will get to work directly with a CEO. In addition to this, they can also earn a stipend of up to INR 30,000/month.

The application process for each internship can be completed within 15 minutes. Therefore I'd request you to share this email with all your students and encourage them to participate [here](#) (or internshala.com/i/ibsi). You may also [download](#) this notice and have it circulated among your students or use the Share on WhatsApp feature below.

Please note - Students from all fields and year are eligible and registrations are open till 13th December.
