

No. VSSUT/ACD/ 836 /2024

Dated: 11/11/2024

NOTICE

This is for information of all the 6th / 8th semester students that they can also choose Open Elective – II (6th semester) / Open Elective – IV (8th semester) respectively from the NPTEL / Coursera / CISCO Net CaD / IBM / Autodesk etc. for the academic session 2024-25.

NPTEL / Digital Skilling Courses offers a diverse array of online courses developed by top-notch professors from premier Indian institutes.

These courses are designed to supplement your core curriculum and provide you with specialized knowledge and skills that are highly relevant in today's rapidly evolving world. Here are a few compelling reasons why you should consider NPTEL / Digital Skilling courses:

- Wide Range of Subjects:** NPTEL / Digital Skilling Courses covers a wide spectrum of subjects ranging from engineering and technology to humanities, management, and more. Whether you're interested in exploring advanced topics in your field of study or branching out into new areas of interest, NPTEL / Digital Skilling Course has something for everyone.
- Quality Content:** The courses on NPTEL / Digital Skilling Courses are meticulously curated and taught by experts in their respective fields. You'll have access to high-quality video lectures, reading materials, assignments, and quizzes that ensure a comprehensive understanding of the subject matter.
- Flexibility and Accessibility:** NPTEL / Digital Skilling Courses are delivered entirely online, providing you with the flexibility to learn at your own pace and convenience. Whether you prefer to study during evenings, weekends, or even on-the-go, NPTEL's / Digital Skilling Courses platform accommodates your schedule.
- Certification and Recognition:** Successfully completing NPTEL / Digital Skilling Courses can earn you certificates from the participating institutes, which hold significant value in showcasing your expertise to potential employers or for further academic pursuits.
- Complementary Learning:** NPTEL / Digital Skilling Courses complement your traditional classroom learning by offering deeper insights, practical applications, and cutting-edge research in specific areas of interest within your discipline.

Choosing NPTEL / Digital Skilling Courses as your open elective not only enriches your academic experience but also equips you with valuable skills and knowledge that are increasingly in demand in today's competitive job market.

You are encouraged to explore the wide range of NPTEL / Digital Skilling Courses available and consult with your HoD/HoP/faculty/ Nodal officer (Prof. Radhashyam Patra), to understand how these courses align with your academic and career aspirations.

Submit the list of subjects through your department office to the office of Dean Academic as per the prescribed format by 30/11/2024.
